

SELFIES, PRIDE AND THE GOLDEN CALF (EPISODE 10)

Welcome back to Jedi Training Selfies, Pride, and the Golden Calf.

This is going to be a horrible podcast.

Not because you can hear me trotting around.

The army is always on the move.

So, you know, physical training is always going to be part of the mental training.

But this is going to be a horrible broadcast because of what we have to say.

Okay, now, the Golden Calf is something that we're going to come back to over and over again

because it's very important for what we're going to do, for what we are trying to do.

Now, of course, as Jedi, quote-unquote, we're fighting the dark side.

But what it really means is that we are a priestly warrior class of Christians.

I'm just kind of stealing the term Jedi.

Jedi, but it's not really theft because it's really a marketing kind of thing.

So, I think Jedi kind of gives people the better idea versus, you know, the priestly warrior class training seminar.

It is what it is.

So, selfies, pride, and the Golden Calf.

We're going to start with the Golden Calf because, again, it's a big theme that we should always remind ourselves about.

And the Golden Calf is about whoring after idols.

The Bible talks about the people of God whoring after idols, a type of spiritual idolatry.

This is a very important concept that we're going to keep, you know, pushing towards you, no matter how controversial it might seem.

Whoring after idols, spiritual idolatry.

The Bible also warns us about incest, about all sorts of things, you know, with your daughter, with your children, with your relatives, things of that nature.

Now, what do we see in the contemporary Christian church?

We are whoring after idols.

We are whoring after the children of God.

Now, you might think, well, that's a whole lot better than the Golden Calf or some other kind of, you know, demonic representation.

But it is spiritual idolatry.

It is whoring after idols.

It is abhorrent.

And, technically speaking, it is an abomination of desolation.

And that's why it's very important that we do not fall into that trap.

It is difficult.

Many people have been deceived.

And we see what their justification for the deception is.

And we're not going to go over it, you know, again and again.

But, essentially, it's been inserted by the Romanized Catholic Church.

It's been inserted for political reasons.

It was the whole theme of the Council of Nicaea.

And there was division back then.

It took about 300 years for the teachings of Jesus to morph into sun worship for a lot of Christians.

And, of course, the Romanized, or the Roman Empire at the time, took the opportunity to poison the well.

And there were various cults, or sects, we should say, that were promoting this.

And this included the Jehonian sect.

And this, of course, is way, way before our time.

But the domino effects are still felt today.

And, essentially, it's been normalized like just about every other sin out there.

So, it's really important that you do your own research.

Not only on the Council of Nicaea, what that was about.

The resulting document, which is the Nicæan Creed, which is, you know, a profession of faith in the Catholic Church.

Starts out well, and then all of a sudden, you know, we kind of veer off into sun worship.

Now, this isn't to say that, you know, this isn't to take anything away from Jesus.

But, if you pay attention to what he was teaching, the disciples and Matthew, Mark, and Luke, it was not about self-worship.

Jesus clearly makes the distinction between himself and the Almighty.

Jesus is preaching at the temple, preaching at the synagogue, practicing the faith like everybody else back in the day.

But, obviously, Jesus wasn't like everybody else.

Jesus was like a Superman.

And, the reason that he was a Superman is, and should be obvious to everyone.

But, going beyond that, essentially, is a heresy.

I think Jesus made that clear.

I think the Old Testament makes that clear.

It's not until you get to, basically, the very end, where things turn to sun worship, which is the book of John, and maybe certain passages of the letters of Paul, which were most likely written under duress while he was under house arrest.

In Rome, and the like.

And, so, there was an agenda there.

And, chances are, much of his communications were being monitored, intercepted, or influenced.

That isn't to say that Paul wasn't on the right track.

It just seems that what he was communicating, for the most part, was coded language.

And, we'll get more into that when we talk about the armor and the like.

Because, he wasn't talking about armor just metaphorically speaking.

He was talking about armor physically speaking.

And, it is something that you'll have to have when conducting spiritual warfare.

Which is something that we'll get to eventually.

But, again, you've got to get your spirit right with the Almighty, if you want to be able to excel as a spiritual warrior.

Again, the idea is to be a priestly warrior class.

In terms of your mindset, and in terms of your attitude, the Bible makes it quite clear what we should be doing with agents of the dark side.

We'll get more into that in a future podcast.

But, it's all there for yourself.

Hopefully, you're starting on your homework.

Deuteronomy, Leviticus.

It's very important that you understand what the attitude should be.

Of course, Jesus came preaching at a time of peace in the Holy Land, where just about everybody was pretty orthodox.

They weren't dealing with the heathens of today, for the most part.

That isn't to say that there shouldn't be some consideration for the people that don't know better.

And, we'll talk about target selection, perhaps in a more profound way in a future podcast.

But, it's safe to say that if you're in Sodom and Gomorrah, the big city, or some kind of land of desolation, spiritually speaking, that just about every target is fair game.

But, you know, there is some consideration to be made when it comes to attacking the proxies in the matrix.

And, there is some consideration to be made about warning people before you open fire, in a sense.

But, it's a real tough debate, and I think we're kind of well beyond that in terms of what's going on out there.

But, you know, a warning shot, verbally, is kind of almost a prerequisite to a certain extent.

But, the cycle is pretty clear.

As you preach, more agents of the dark side will come after you, and eventually you're going to feel like you're swamped, surrounded, and the like.

And, that's where spiritual warfare really kind of comes into play.

Talking about selfies and pride, they kind of go hand in hand.

When you think of selfie, you should be thinking of selfishness, not just like you're accomplishing something by yourself.

But, essentially, you're trying to display your assets.

You're showing off your pride.

You're showing off what you got.

And, essentially, you're driving envy in other people.

Jealousy. They want to covet.

And, so, you end up being part of a problem.

But, taking pictures of oneself is problematic for other reasons.

For one, it's an image of a human likeness, which is forbidden in the Bible.

And, it's forbidden for numerous reasons that probably isn't really related to pride.

But, that things that you can't see will actually bow down and worship that image.

Just to make it evil.

And, so, this, you know, of course, is probably the subject of some debate.

But, the Bible tells us that this is exactly what happens.

Now, it's worse if it's a graven image.

It's worse if it's a sculpture.

Some sculptures and paintings and pictures can, in fact, embody unclean spirits.

Or, other spirits that are perhaps something beyond all of that.

Depending on the sculpture and location.

In any case, the reproduction of any image tends to be viewed as sin.

Unless it's for educational purposes.

And, still, that in itself is another debate.

Pictures, videos, sculptures, all of that.

Can also be used for something that we'll discuss in a future podcast.

Not sure how much time we're going to have for this one.

But, an image, a picture, is like a window to a location or to a person.

It's almost like a phone number.

It's almost like GPS coordinates.

Especially for those that are into telekinetics.

Telekinetics.

We'll talk more about that.

But, essentially, the idea is that...

Telekinetics can jump from one location to another.

And, this is going to be, basically, where we're going to begin training your abilities.

And, so, this kind of foreshadows things to come.

But...

Essentially, it is a window to another point in time and space.

And, the aim of telekinetics, which is a natural ability for those that can train it.

Telekinetics allows you to bridge the gap between point A and point B.

And, before you get good at doing it without a picture or without a video,

it's a lot easier to do it with a picture or with a video.

And, essentially, we're going to use pictures as training wheels

to get your mind adapted to this natural phenomenon.

Again, target selection is highly important

because the wicked will not be justified.

The Bible tells us so.

This is a very important thing.

This occupation...

Is a dangerous occupation.

Not just because you're entering the battlefield,

but because...

Like any soldier in any war...

You essentially are...

Doing damage.

And, there are occupations like this that just kind of leave their mark on people.

Whether you're a butcher...

Whether you're a surgeon...

Whether you're a soldier...

You're not going to leave that occupation the same way that you came in.

And, that's why it's really important to have a strong base in your faith.

Because, what we're doing isn't...

The preferred method of resolving issues.

And, the more you get involved...

The more it kind of takes a toll on you.

For one reason or another.

All of a sudden you start thinking you're Superman.

Or, all of a sudden you start...

Getting a taste for...

Taking out people...

Wicked or otherwise.

And, sometimes the lines blur quickly.

Sometimes, with the fog of war...

Mistakes can happen.

And, you know...

All of that can take a toll...

And, bring you...

Down a level.

And, keep you down.

If you don't have the right...

Type of attitude.

Let's say.

So, spiritual combat...

Primarily is against...

Disembodied persons...

Or...

Disembodied creatures...

That are not human.

Not by their form.

Not by their nature.

They're just something else.

Disembodied persons...

So, a lot of...

The activity is essentially...

Against things of that nature.

But...

Sometimes, it comes into the...

To the physical world.

And...

It's a little bit like...

The Matrix, in a sense.

These people that are still...

Plugged in.

Body snatched.

Or are...

Or are...

Avatars.

Or drones...

Of the dark side.

You know...

They're human flesh and blood.

They have feelings and the like.

And...

And...

What you do to them isn't...

You know...

Without...

Some form of guilt.

But...

If they're agents of the dark side.

If they're vessels of the dark side.

In a war...

In a war...

It is what it is.

But having this mindset...

Is a very dangerous...

Type of...

Occupation.

And...

That's why you should always be questioning...

What you're doing...

Why you're doing it...

And...

So on and so forth.

In my personal opinion...

I feel that...

It's justified...

Given the way...

Society is basically...

On a downward spiral...

But also because of...

The conflicts that I've engaged in.

The enemies that I have engaged in.

Or engaged with, I should say.

These things are beyond...

Human.

And...

They're very hostile.

This is a new kind of enemy.

For most people.

And so...

In this kind of war...

There isn't a whole lot of room...

To ask too many questions.

Once you realize...

What we are...

Involved with...

What we're up against...

Essentially...

The more enemies you take out...

The better it is.

And that's all there is to say about it.

Of course...

You know...

This isn't to be done...

In the physical...

For the time being.

This isn't a hot war.

This is a cold war.

And in this context...

It's spiritual warfare.

And...

So the aim essentially here is...

To take out the enemy.

In all its forms.

Anywhere and everywhere you can.

And it really becomes...

Pretty routine.

It's not enjoyable.

There is...

There is...

Some sense of satisfaction...

When you go on missions...

And we'll talk about that...

In a future podcast.

We're not quite there yet.

But there is...

A certain satisfaction...

Knowing that you've taken it...

To the real enemy.

And of course...

This may sound like...

You know...

Some kind of science fiction movie...

But...

Once you see it for yourself...

And...

Chances are...

You will...

You'll realize...

Exactly how serious...

The situation is.

Not only for yourself...

But...

For all of us...

That are...

Practicing the Christian faith.

We're all being persecuted...

We're all being hunted down...

We're all being discriminated against...

And you might think...

It's just political...

But it's beyond that.

There is an unseen force...

That is guiding this persecution.

They try to make it seem like...

It's...

Random...

Natural causes...

Some type of coincidence...

But...

Once you can flush out the enemy...

And that's the big thing...

And we'll get into that...

Once you flush out the enemy...

And you see it for yourself...

You'll realize...

That what I'm talking about here...

Is beyond serious...

But this enemy...

Does its best...

To remain hidden...

It's behind the veil...

For the most part...

It uses camouflage...

It doesn't like being exposed...

If you think exposing the lies...

On the internet is bad...

Exposing these things...

Is worse...

But essentially...

Once you do flush them out...

Then it becomes...

Kind of like a paradigm...

Like they live or something...

And...

In that movie...

You know...

Roddy Roddy Piper...

As soon as he realized...

That he was...

Dealing with...

With aliens...

He didn't ask too many questions...

You know...

It was like...

I came here to chew bubble gum...

And kick some ass...

Pardon the language...

They took that guy out...

But...

Essentially...

Once...

You see it for yourself...

And we're gonna try and get you there...

But you have to be ready...

And we don't want you...

Flushing out the enemy...

And getting too involved...

Until you're really ready...

Otherwise...

You might as well just run around...

With your pants down...

But once you get to that stage...

And you see it for yourself...

You'll realize that...

You know...

It's a war...

And anything goes...

And you'll be willing to try...

Just about...

Anything and everything...

To win and survive...

But you have to remember...

That this is...

An epic struggle against evil...

It's biblical in nature...

There's a certain way to go about it...

Doing it the wrong way...

Is going to be counterproductive...

And...

Most likely suicidal...

Many people...

And many of you...

Will be victimized...

By this system...

By this enemy...

Regardless if you jump in...

Regardless if you...

Flush out this enemy...

Regardless if you attack or not...

And that's why...

It truly is in your best interest...

To pay attention...

And follow along...

I know it's not...

The most attractive...

Podcast...

In terms of...

You know...

Listening...

I suppose...

Right now I got a...

Got a heavy load...

I'm hiking...

So you probably hear the footsteps...

Maybe even the...

Heavy breathing...

It's kind of annoying...

You know...

I'd like to be able to do this...

A little bit differently...

But for the time being...

It is the way it is...

Eventually we'll try and...

You know...

Redo this series...

In a more professional...

Easy listening way...

But...

It's better to get this information out there...

Than not to get this information out there...

So...

We do apologize for any...

Inconvenience...

In terms of your listening pleasure...

As we tromp around the wilderness...

But...

This is PT...

And...

At least...

You know...

It's part physical training...

And it's part...

Communication...

But...

When you get as far as...

I've gotten...

You tend to...

Do a lot of multitasking...

We'll have to...

Leave it there for this broadcast...

Appreciate everybody tuning in...

We'll be back...

With more...

But in the meantime...

Listen to...

The King James Version...

Dramatize...

Faith comes from the spoken word...

And...

If you're not subscribing to...

Listening to the Bible...

And preachers...

And the like...

Then...

Essentially you're subscribing to...

The dark side...

Until the next time...

If you're listening to this...

You are...

The Resistance...
