

THE SHADOW WORLD, QUANTUM PHYSICS AND SHIELDING STRATEGIES (EPISODE 14)

Welcome back to Jedi Training. This podcast is titled The Shadow World, Quantum Physics, and Shielding.

Now before we get into all of that, it should be obvious to you that telekinetics is being used by both sides in this war.

The dark side uses telekinetics, and the good guys use telekinetics, the power of the mind over matter.

Now it should also be obvious to you that the dark side gets its power through sin.

And so individuals of the dark side will attempt to commit as much sin as they can to harness more spiritual currency for telekinetics and other means.

The more a person is well-versed in scripture, the more dangerous they are, whether it be of the dark side or of the good guys.

So if you know scripture, you know exactly what to do and what not to do.

But the dark side essentially tries to do what you're not supposed to do.

They're going to be looking to lie, they're going to be looking to steal, to cheat, to kill.

It's kind of like that song, Tell, Tell Me Lies.

And so you wonder when you watch the television, why is it all lies?

Because it's part of their religion.

Their religion, quite literally, is anti-Christian in nature.

And so they'll abort their children, sacrifice their children,
and they'll roll out plandemics and everything else as a ritual sacrifice.

Because the more murder, the more chaos, the more lies, the more deaths, the more they cheat, the more they steal,

the more powerful they become in terms of metaphysics.

And this is why we keep emphasizing to all of you out there to know scripture by heart, all of it.

Especially the first five books of the Bible.

And we're going to get into that.

But essentially, that's where our power, if you will, comes from.

The more virtuous you are, the more holy you are,

the better person you are,

the more proficient you'll become

in telekinetics and everything else.

And we'll get into all of that in the shielding portion of this podcast.

But the main reason that we're drilling the Bible here is because you need to know it.

Not only for your personal salvation,

not only for satisfaction,

not only because it's doing the right thing,

but because it is the source of your abilities, in a sense.

I say in a sense because the true reason that we partake on this adventure

is to please our Creator.

To be righteous in His eyes.

And of course, that is a very difficult task.

And the true source of our power

truly comes from our Creator.

All of that is complicated and

to a certain extent

it's not something that should be

fully discussed.

This is a war

and information is important.

But as far as

the tools on the battlefield,

being a Jedi,
being proficient
against the dark side
means knowing the Bible
by heart.

Listening to it every day.

Faith comes from the spoken word.

And the big advantage of the first five books of the Bible
is you're hearing the words of the Almighty.

A lot.

More so than in any other books of the Bible.

In fact, the Ten Commandments were written
by the Almighty.

And

it's a huge source of
power, if you will.

Now look, we're not seeking power.

This isn't about
being on a power trip.

We talk about power like
you know,
the electrical grid.

You need power to run machines.

You need power to
you know, do things.

You need energy.

You have to eat.

And so we speak of it like that.

We don't speak of it as a sense of
you know, look at me.

It's not that kind of power trip.

But it is

necessary

to be proficient in telekinetics

and it's necessary for there to be

weight behind your words,

thoughts, and actions.

Without virtue,

without holiness,

without spiritual cleanliness,

without righteousness.

you're basically just

stagnant

in the water.

So

nothing beats

knowing the Bible

and

living it,

manifesting it into the physical world,

thinking about it,

spending time there.

nothing replaces that.

Nothing is better than that.

And

without it,

you're not going to be a Jedi.

You're not going to be

a priestly warrior class.

You're not going to be a warrior

on the battlefield.

You're just going to be

you know,

a regular person.

And there's nothing wrong with being a regular person.

But this is a war.

And the idea is to

participate.

Now,

there's a lot to talk about.

I'm not sure how far we're going to get in this podcast.

But let's talk about

the shadow world.

Let's talk about quantum physics.

Let's talk about

the enemy that you're going to encounter.

because this is the pool

that you're jumping into.

This is what's running the world
for the most part.

And this is what is really attacking you
if you feel like you're being attacked,
gang stalked,
and the like.

This is what's driving
the people around you.

So, you know,
if you're trying to wake them up
and you're trying to talk truth to them
and they're like,
oh no,
tell me lies.

Only lies.

If you feel like you're isolated
or ridiculed
or
discriminated against
because of
the way you're thinking,
it's because
these people are plugged into the dark side.

So,
knowing thy enemy
is basically,

you know,
an important
aspect to
understanding what's going on.

Now,
again,
we want you to have a full understanding
of what you're up against
because otherwise,
you're really in for a surprise.

And so,
first and foremost,
what you're up against
is
the deceased civilizations
of the universe.

Most of them are hostile.
Most of them were wiped out
due to judgment
or
perhaps something else.

and they
carry on
in a spiritual form.

Disembodied spirits,
you can call them demons,

you can call them

devils,

you can call them aliens.

There's all sorts of different classes,

sizes,

and

things to consider.

But,

this is your primary enemy.

And this enemy uses telekinetics.

They are mostly invisible.

They pretty much use

camouflage

all the time.

Either you can't see them

or they look human.

And while that may sound convenient,

I mean,

this is the

understood principle

of spiritual warfare.

This is recognized by

religious scholars

around the world.

seeing them

is an acquired skill.

It is possible.

We'll talk about that more.

We've talked about it a little bit,
about seeing beyond the veil.

You can also see the auras of people
by

essentially just kind of
looking outside of them.

Looking right beside them,
but paying attention to
the form
that's around them.

Imagine

a clear

dark night

and you're looking at the stars

and

there's some stars that you can see

and there's some stars that you

can barely see.

But if you look away from the star,
you can almost see it better.

It's almost like you're using
your peripheral vision
in a sense.

seeing people's aura

is an acquired skill.

Some people have already
experienced this.

If not,

try and practice it.

You can see

things from like a dark cloud
over their head

to

devil horns

to a halo.

But

it's exactly that.

in any case,

for the most part,

what you're dealing with

in the physical world

are people that are having

some kind of symbiotic

relationship

with

demonic entities.

It can be several.

They can be big.

It just kind of depends on

the individual.

and some of their
attacks,
and this is something
that you'll be,
that you'll get accustomed to,
is demonic attacks,
telekinetic attacks,
spiritual attacks.

Players of the dark side
draw
some of their abilities
through this symbiotic relationship.

Sometimes these demons
will attack
and
perhaps the person
isn't even aware of it.

These attacks
can come in
in all forms
from all directions.

These
spiritual entities,
demonic entities,
can use telekinetics
in a way that

they can
essentially project
a type of weapon
into your environment.

These weapons
are best described
as

as
quantum weapons,
and we'll be talking
about that.

One of the most
common forms
that you'll see
is

an eye.
just an eye
floating around.

You'll barely be able
to make out its outline,
but once you
become accustomed
to seeing it,
you'll see it
more and more often,
especially in the dark,

especially while you're
sleeping,
especially when you
wake up at night,
and especially in the winter,
in the darkest
months of the year.

So we'll have to
talk about that
too,
the cycles
of the year.

The full moons,
the winter months,
etc.

But we're getting
close to
the equinox,
which means
that
we're now
tipping into
dark side
territory
for the year.

Almost sounds

cliche,
but it is
what it is.
So you're
going to have to
learn how to
defend yourself
from these
attacks,
and the best
way to describe it
is demonic
attacks.
Essentially,
these
quantum
phenomenon
operate in
the EMF
spectrum.
what frequency
they are
is hard to
say,
but it seems
to be just

outside of
visible light,
right on the
fringe.

You can barely
see them.

And they
attack
on the
EMF
spectrum,
and it's
why shielding
works.

some of
their
attacks
are
minor,
but
consistent,
and some
can be a
little more
devastating.

These

attacks can
be coupled
with technology,
and
some of
what's going
on,
whether
life forms
or quantum
weapons,
are traveling
through
copper wire,
which means
they can
show up
in a
death
tower,
they can
show up
in your
computer.
You can
think of

it as
ghosts
in the
machines.

This is
a very
real
phenomenon.

There are
life forms
that basically
live in
the electrical
grid.

The electrical
grid, of
course,
is made
of electrons.

It's
like a
plumbing
system of
electrons
being pushed
through the

wire.

It's all

negative

energy.

It's all

of the

dark

side.

And there

are life

forms that

reside in

this grid

and can

essentially

park in

any type

of electronic

device and

augment the

attacks of

the quote

unquote beast

system.

energy.

So,

essentially,

you're

looking at

some kind

of cocktail

synergistic

effect.

Synergy,

of course,

is when

two variables

come together

to produce

an amplified

effect,

kind of like

nitrous in

the gas

tank.

thing.

But these

are some

of the

things that

you're going

to encounter

as well
as entities
that will be
attacking you
from the
other side
of the
veil.

And you'll
really have
no awareness
of it
until you
can begin
to see
in the
fifth
dimension
or into
the mid
heavens or
the second
heaven,
however you
want to
think about

it.

But it's
important to
think about
it and
to think
about it
in all
its
definitions.

But,
essentially,
there's a
very wide
variety
of
evil
that's
out there.

It's not
just evil
people and
it's not
just devils.

There are
many,

many things

to consider.

And they

all work

like a

hive.

From the

foot soldier

to

the

authorities

of

the

dark

side

in the

heavens

above.

There's a

wide range

of morphologies.

some of

them look

reptilian,

some of

them look

like
greys,
some of
them look
like
devils,
some of
them look
like
things you've
never seen
before.

And it
is highly
suspected that
we're also
dealing with
cybernetic
civilizations,
either from
this earth,
a previous
earth,
a future
earth,
or

from other
planets,
other
universes,
and perhaps
other
dimensions.

But when we
refer to
other
dimensions,
we
essentially
think of
it as
either
physical
or
spiritual.

Other
universes
are
highly
plausible,
like a
metaverse

type of
scenario.
and other
planets are
pretty
self-explanatory
unless you're
in the
dome,
living in
the matrix,
which is
something that
we can't
really exclude
either.

We'll get
into all
of that
perhaps in
another
broadcast.

We do feel
that some
people are
plugged into

the matrix,
if you will,
in pods
underground,
in underground
cities,
operating
avatars,
or just
living a
simulated
life in
a dreamlike
state.

Again,
that's really
not the topic
of this
podcast,
but it's
definitely
within the
realm of
possibilities,
and our
intelligence

suggests that
there's some
of that
going on.

It also
seems like
this isn't
the first
time that
humanity has
been more
or less at
this stage.

The Bible
tells us
that
previous
earths
were wiped
out with
a flood
or something
else,
that were
to replenish
the earth,

that were
going to be
part of the
regeneration.

That's a
popular topic
in many
churches.

And so
the dark
entities that
we're dealing
with,
some of them
might come
from earth,
some of them
might come
from somewhere
else,
some of
them are
definitely
coming from
the shadow
world.

And this
is another
idea.

It's more
interdimensional
than it is
another universe.

But the
idea is that
there are
mirror worlds,
worlds that
mirror this
one in
shadow form.

There may be
worlds or
universes or
realities that
mirror this
one in
other ways
as well.

Kind of like
when you look
into a mirror.

A mirror is a
real bad thing
if you ask
me, but
essentially it's
the world
flipped upside
down or
inverted,
if you will.
It basically
represents the
antithesis or
the opposite of
what's going on
here, which is
going to be bad
news.

We'll talk
about mirrors
and all that
in another
podcast.

But the
idea of
shadow worlds

is something
to consider
because we've
seen a lot
of shadow,
dark shadow
entities.

Sometimes people
refer to this
as shadow
people.

They're
slightly different
than the other
things that you're
going to encounter
out there.

I mean,
seriously,
like the
twilight zone.

But shadow
people definitely
come from
somewhere.

They've been

seen by many.

And so let's

kind of break

that idea down.

You know,

not everybody's

seen a shadow

person.

Hardly anybody

has seen the

shadow world,

if anyone.

But everybody's

seen a shadow.

So what is a

shadow?

How do we

define a shadow?

Is it the

absence of

light?

Is it a

type of

reflection?

One thing

is for sure,

it's not

alive.

A shadow

is not

alive.

A shadow

basically

mirrors the

living,

unless we're

talking about

the shadow

of a building.

But this is

kind of like

the idea of

the shadow

world.

like this

is obviously

meant for us

to perceive

because we

can see these

shadows in

broad daylight.

We don't
really pay
attention to
it because
we think of
it as just
kind of like
normal.

Oh, you
know, this
object is
casting a
shadow.

And we
kind of just
leave it
there.

Now, the
Bible talks
about the
shadows of
death, the
valley of the
shadow of
death.

this is

referred to
in a few
different
Bible passages.

And it's
something that
we've
experienced,
the valley of
the shadows
of death.

I mean, in
the darkness
at night,
in valleys
especially,
you can see
what looks like
shadows moving
in the sky
not far above
the horizon.

And it's
almost kind
of like
middle plain

when you're

in a

hilly kind

of terrain.

It's not

totally way up

there.

It's not

totally on

the ground.

But essentially

you can see

these shadow

things moving

something like

you know,

Stranger Things,

like an episode

of Stranger Things.

you can see

these things

dash across

the valley,

cling to

trees,

jet across

the sky,
and you can
see like
certain
features of
the terrain
essentially
acting like
an anchor,
kind of
like a
ground,
if you will.

The ground,
which represents
the secular,
the earthly,
in theory it's
connected to
hell,
the ground is
essentially bad
news.

But that's
kind of like
the topic of

another broadcast.

But essentially

you can see

like there's

almost something

coming out of

the ground

and interacting

with the

sky.

And this of

course is

kind of like

in concert

with what's

going on

with the

stars,

and that's

just another

thing altogether.

We're going

to have to

leave that

for another

podcast.

Feels like

I'm going to

get rained

on here.

Yes I am.

Which means

I better get

going.

But in

closing we're

going to talk

about shielding.

Shielding is

really important.

Ephesians 6.13

talks about

shielding.

There's

essentially

five defensive

things that

you need.

And you

have one

offensive thing

and you

have prayer.

And essentially

this kind of

gives you the

proportion of

what you're

going to be

dealing with.

Personally I

spend a lot

of my time

making shielding.

That's something

that you're

going to want

to start to

practice,

accumulate

skills,

working with

different materials,

and

essentially

you're going

to need

total coverage

especially if
you get
involved in
telekinetic
warfare.

This army of
darkness is going
to come after
you hard
especially at
night,
especially while
you're sleeping.
you're going to
have to practice
working with
different types
of materials.

You can start
with aluminum
foil and
thick scotch
tape or packing
tape.

Try to make a
flak jacket,

try to make a
vest,
try to make
some upper
body armor,
try to make a
girdle.

And obviously
we recommend
multiple layers.
Variations in the
layers,
not always
facing the
same way.

And
that works
a little bit
but not
really.

And you're
going to have
to practice
making a
helmet,
you're going

to have to
practice making
basically like a
bulletproof vest,
you're going to
have to practice
making underwear,
sandals,
boots,
shin guards,
etc.

As well as
acquiring
shielding for
your environment.

You're also
going to have to
work with other
types of metals
like steel
mesh.

That works
pretty well
but there is
no magic
solution.

If you're
really coming
under attack,
you're going to
need multiple
layers of
different types
of materials
and the dark
side adapts
quickly.

And so
a strategy
that works
today probably
isn't going
to work
next week.

So it's
really an
endless kind
of battle.

But you're
going to have
to practice
with sheet

metal and
you know,
if you're
going to do
it on the
cheap and
you know,
something that's
easy then
go get the
thickest,
most durable
you know,
box tape
that you can
and start
sealing up
all the
layers,
make straps
out of it,
practice putting
it together,
you're going
to need it.
But essentially

the strategy
in Ephesians

6.13 is

five parts

shielding,

one part

attack,

one part

prayer.

You know,

none of us

are really

going to be

praying 24-7

even though we

should be.

but you

will be

shielding

pretty much

24-7.

It's going

to become

your major

occupation.

We'll get

into the
sword of the
spirit and
prayers,
which obviously
is very
important,
but another
kind of
important note
is that
Ephesians 6.13
parallels the
613 statutes
and commandments
in the Old
Testament.
And so
know those
statutes.
It's not about
being saved
through works,
it's about
being virtuous
and holy

and understanding

what that means

so that when

you really get

to telekinetics,

when you really

want to apply

your thoughts

and your ideas

to the enemy,

it'll happen.

Of course,

Jesus tells us

that we have

to believe.

But you also

have to have

that spiritual

currency,

which is virtue.

Jesus could

feel the virtue

being drawn out

of him when

the woman touched

him with an

issue of blood.

Virtue is your
spiritual currency.

And you're only
virtuous by
living out the
pages of the
Bible.

And so it's
not about being
saved through
works, it's about
being virtuous and
righteous and
holy.

And so
you kind of
have to unlearn
a lot of
what you've
learned from
many other
preachers and
really stick to
the old school,
if you will.

And,
you know,
that's going to
make all the
difference,
especially when
things get
difficult.

grace comes in.

But don't
expect, you
know,
you know,
the angels
deliver pizza
for you or
to pay your
bills for you
or to do all
the things that
you need to
do.

You know,
everybody's real
busy.

So you have

to do everything
that you can do
to stand your
ground.

but it is a
very chaotic
battlefield.

We're going to
have to leave it
there for this
podcast.

Appreciate everybody
tuning in.

Until the next
time, if you're
listening to this,
you are the
resistance.
resistance.

Te expands to
put a
beat.
