

TELEKINETICS OF THE ANCIENT WORLD (EPISODE 17)

Welcome back to Jedi Training.

In this podcast we're going to be talking about telekinetics of the ancient world.

Now, we've talked about

the amazing things that Jesus did.

He told us that we could move mountains, that we could cast out demons.

That

we would have authority over all of the powers of the dark side.

Of course, Jesus did things that were even more amazing than that.

And

many of us would probably attribute

the miracles that he performed to the fact that he was

an exceptional person walking the earth.

Not everyone is going to have the status

of Jesus, to say the least.

But he said that we could

do what he did

to the fig tree.

He said that we could move mountains if we believe.

He said we could cast out demons.

We might not be able to walk on water.

We might not be able to feed 5,000

with a few loaves of bread and a few fishes.

But

we definitely have superpowers.

And

throughout the Bible, there are

many people

who exhibited

superpowers.

We're going to focus on

Moses

because

what Moses did

was exceptional as well.

And I think that we all find ourselves

basically in that situation.

We're like

slaves in Egypt.

See that pyramid on the back of the dollar bill?

We're basically

screaming,

Pharaoh, let our people go.

So I think we

identify ourselves

more with

Moses to a certain extent

than

what was happening

during the times of

Jesus.

Because

even though

Jesus was living under Roman occupation,

it seemed pretty peaceful.

They were in their homeland.

Just about everybody around him

was a person of faith.

There might have been some disagreements on

many things,

but

essentially everybody was going to church

or synagogue.

Everybody was practicing their faith

for the most part.

But we find ourselves

in Babylon

or in Egypt

like Daniel

or like

Ezekiel

or like

Moses.

And so it's important to think about

the lessons

that are in those

sagas as well.

But we're going to focus on Moses

because Moses

thousands of years before Jesus

was doing some pretty

amazing things.

Now, of course,

there are

other cultures

that were

performing

telekinetics

and

things of that nature

on behalf of the dark side

in the ancient world as well.

We'll hopefully

talk about that

a little bit

in this podcast.

but let's think about

the things that

Moses did

and

let's think about

how he was able

to do it.

I hope you know the answer to this

because you should.

Everybody should know

the answer to this.

But

the short of the long

of it is

that

the Almighty

empowered

Moses

to do the things

that he did.

and

that's where our power

comes from.

The things that we can do

are far superior

to what

other people can do.

I mean,

that sounds really

kind of like

conceited,

doesn't it?

But it's true.

when we connect

to the Almighty,

anything and everything

is possible.

And that's the key.

That is the key.

There is no other key.

That's, you know,

basically all you need to know

about Jedi training.

But you gotta do it

like Jesus did.

You gotta do it

like Moses did.

You gotta do it

like the prophets did.

You gotta do it

like those people

of faith.

There's no other way.

And so we're gonna

keep talking about

know your Bible.

Leave doubt behind.

Doubt is your

biggest enemy.

It poisons the well

like you wouldn't believe.

It is perhaps the most

powerful weapon

of the dark side.

Because with doubt

and disbelief,

you're just a sheeple.

Well, let's think about Moses.

He did a lot of amazing things.

Now,

obviously,

having a relationship

with the Almighty

makes a big difference.

and eventually

you're going to get

an agenda.

An agenda.

Now,

most of us will

never be

privileged enough

to have a direct

conversation

with the Almighty.

But,

we can still have

a relationship.

And,

if our heart

is in the right place,

then we can do

some pretty amazing things

for the glory

of the kingdom.

Now,

there's so much

to say.

It's like,

where do you begin?

Of course,

the idea of telekinetics

is

mind over matter.

You think a thing,

you want a thing

to happen,

and it will.

Now,

you have to be careful

because this is kind of like
the movie Ghostbusters
in a way.

You know,
whatever you think
is going to,
you know,
basically show up
in reality.

Like the Stay Puft
Marshmallow Man
or something.

So,
having a disciplined mind
is very
important.

And,
that's why,
you know,
these
sorts of talents
aren't just
unlocked
willy-nilly.

because
accidents can happen.

Stupid things
can happen.
You wouldn't want
somebody with low IQ
having the talents
that
Moses had.
There's no telling
what would happen.
we'd all find
ourselves
floating in the
Pacific or something.
But there's
something there
to think about.
now,
the Almighty
chose
to use
Moses
as
a tool
to fight
against
the powers

of

wickedness.

we could spend

a lot of time

asking questions

like why.

And I think

that has to do

with

the big picture

as far as

why we're here.

We're created

in the image

of our Creator.

and so we have

a special purpose.

Everything here

has a special purpose.

But this should be

a reminder

of how

important we are

even though

we are

insignificant

mortals.

roaming the Earth

from dust

to dust.

And that's so

mind-blowingly

true

to be quite honest.

When you look at the

chemical composition

of

the Earth

it's basically

an exact copy

of

the chemical

composition

of

the human body.

they were

talking about

that

5,000 years

ago

before

people could

even analyze
what was in
the human body.
Whether it be
nitrogen,
hydrogen,
silicon,
water,
it's just
basically like
a
carbon copy
chemically
speaking.
but even
though we're
insignificant
little ants
in the ant
farm
we're special
because
we have
the image
the form
of the

almighty

and that

is a big

deal.

That makes

us unique

in the universe.

that makes

us unique

in all

of creation.

And it

makes a lot

of

evildoers

jealous

because

as far as

what I've

seen out

there

none of

them

really

look

like

us.

They

all look

like

something

else.

We'll

get into

that

in a

future

podcast

but

we are

unique.

And

the

almighty

has

chosen

that we

have a

role

to play

and

Moses

is

a

perfect

example

of that.

A

role

to play

in the

fight

against

evil.

One of

the oldest

prayers

in the

Bible

is

the

Lord

is

a

man

of

war.

After

Pharaoh
and
his
army
was
destroyed
that
was
the
prayer
that
the
people
were
singing.

It's
a
big
theme
in
the
Bible.

We
are
to
fight

like
gladiators
for
the
glory
of
the
kingdom.
Many
are
called
few
are
chosen.
But if
you're
enlisting
in
this
army
then
it's
best to
know what
you're
capable

of.

But we

saw

that

Moses

was

essentially

used

as a

proxy

to

make

things

happen.

The

Almighty

wanted

it to

be

that

way.

He

told

Moses

stretch

out

your

arm

lift

up

your

rod

God

do

something

physical

in a

symbolic

way

and

then

impose

a

form

of

judgment.

This

is a

model

that we

can

replicate.

At
least we
can
attempt
to
replicate.
but
basically
this is
the
equation
this is
the
formula
and
of
course
what's
missing
is
being
empowered
and
being
empowered
is

like

reaching

a certain

level.

I

almost

want to

say

like

reaching

a

level

in

a

game.

You

know

when

you're

at a

real

low

level

you

don't

really

have

a

whole

lot

of

superpowers

but

when

you're

at

a

higher

level

you

get

more

superpowers

but

to

move

up

to

a

different

level

you

basically

need

to

earn

experience

and

points

you

know

Moses

didn't

start

off

doing

what

he

did

it

happened

after

many

many

years

but

getting

back

to
what
Moses
did
in
the
fight
against
Egypt
against
that
pyramid
against
the
dark
side
he
basically
brought
down
an
empire
he
had
no
army

he

was

pretty

much

all

by

himself

when

facing

that

empire

just

like

David

versus

Goliath

that

just

shows

you

the

potential

one

person

can

have

and
let's
think
about
all
the
things
that
happened
all
these
different
plagues
that
struck
the
empire
basically
brought
them
to
their
knees
destroyed
their
food

supply

their

water

supply

destroyed

their

tranquility

destroyed

their

sense

of

safety

even

going

as far

as

destroying

the

firstborn

and all

the

land

and

finally

the

destruction

of
Pharaoh
and his
army
as well
how
do
slaves
escape
an
empire
can
you
imagine
slaves
just
freeing
themselves
think
about
slavery
in
America
400
years
those

people
were
slaves
could
you
imagine
them
just
freeing
themselves
it
took
a
civil
war
to
do
that
hundreds
of
thousands
of
Americans
died
in
that

war

if

not

more

so

the

slaves

could

be

free

slaves

don't

just

become

free

unless

something

miraculous

happens

that's

the

power

of

faith

one

man

with

the

right

faith

can

bring

down

an

empire

imagine

what

an

army

of

people

like

that

can

do

but

people

don't

take

it

seriously

not

as

seriously

as

they

should

but

we're

here to

tell you

that it's

real

it's

very

real

you

almost

want to

say

too

real

to be

quite

honest

with

you

it's

so

spooky

it

truly

is

the

pages

of

the

Bible

playing

out

before

your

very

eyes

Moses

did

many

other

things

but

during

the wars

after

the

escape
from
Egypt
the
armies
of
the
Israelites
fought
against
many
other
foes
and
there are
accounts
in the
Bible
that
Moses
was
holding
up
his
hands
and

when

he

would

hold

up

his

hands

their

side

would

be

winning

and

if

he

got

tired

and

put

down

his

hands

then

his

side

would

start

losing

and

so

they

basically

propped

his

hands

up

on

a

rock

or

something

there

was

a

person

on

each

side

of

him

holding

up

his
hands
so
that
the
fight
could
continue
and
so
it's
not
just
Jesus
that
was
exhibiting
these
phenomenal
superpowers
I
mean
what
Jesus
was
doing

was

even

more

phenomenal

in

many

ways

but

what

Moses

did

was

pretty

phenomenal

as

well

and

so

this

brings

us

back

to

the

idea

of

mind

over

matter

now

it's

not

just

your

mind

over

matter

it's

your

empowered

mind

having

influence

on

this

constructed

reality

it's

a

privilege

not a

right

you have

to earn

it

you have

to fight

for it

but

usually

it's

not

bestowed

upon

people

that are

seeking

power

seeking

the

ability

to do

things

like

that

is

self

defeating

basically
you just
wake up
one day
and realize
you've
been
empowered
and
and
that's
just
the
way
it
is
so
talking
about
superpowers
really
isn't
the best
way to
go
about

it
the
best
way
to
go
about
this
is
to
have
a
serious
ministry
and
let
revelation
and
apocalypse
happen
to
you
now
the
definition
of

apocalypse

again

is

well

there's

a few

but

the

main

definition

that we're

going to

focus

on

is

the

lifting

of

the

veil

when

you

become

such

a

threat

just

by

your

words

and

your

you know

plain

actions

without

trying

to be

you know

a

superman

but

once

your

words

and

your

thoughts

and

your

actions

have

enough

weight

to

them

then

all of

a sudden

you know

the dark

side

just

can't

take

it

anymore

and

it

starts

jumping

out

of

the

bushes

and

so

it's

something

that

just

kind

of

will

naturally

happen

to

you

if

you

do

things

the

right

way

and

that's

why

it's

important

that we

talk

about

doing

things

the

right

way

because

it's

the

only

way

it's

the

only

way

to

defeat

the

dark

side

it's

the

only

way

to

be

all

that

you

can

be

you

know

a lot

of

people

get

into

telekinetics

and

the

like

by

you

know

trying

to

move

something

with

their

mind

like

you

know

I'll

put

a

quarter

on

the

table

and

then

I'll

just

think

about

this

quarter

and

I'll

just

try

and

move

it

with

my

mind

and
you
know
the
dark
side
and
you
know
just
about
everybody
else
is
doing
it
that
way
and
so
at
the
core
of
their
you

know

superpower

is

basically

themselves

or

you

know

if

they

get

coupled

with

some

kind

of

demonic

force

you

know

then

they

can

do

little

things

and
they're
like
so
impressed
and
it
becomes
their
religion
and
you
know
they
can
never
see
their
way
out
of
that
but
for
those
people

that

are

you

know

practicing

that

form

of

telekinesis

they

can

only

really

go

so

far

because

it's

all

you

know

their

mind

over

matter

or

you

know

their

mind

and

the

demons

you

know

mind

over

matter

matter

but

when

you're

empowered

by

the

almighty

then

it's

not

just

your

mind

over
matter
it's
your
empowered
mind
over
things
that are
happening
in
creation
and
that's
a whole
different
way of
looking
at
things
you
know
Jesus
said
that
you

can

move

mountains

if

you

believe

now

the

question

that

you

should

be

asking

yourself

is

do

you

want

to

move

that

mountain

not

if

you

can

move

the

mountain

but

you

know

is

that

the

right

thing

to

do

I

mean

that

mountain

looks

pretty

nice

where

it

is

why

do

I
want
to
dump
it
in
the
ocean
and
so
being
empowered
is
like
being
nominated
and
you
get
nominated
because
you're
going to
do
the
right

thing

for

the

right

reasons

otherwise

you know

you could

be a

catastrophe

on two

feet

walking

around

now

you know

being

in a

war

is

kind

of

catastrophic

and

you

end up

doing
things
that
you
wouldn't
normally
do
when
I was
back
in
Fargo
you know
before
9-11
before
things
started
getting
really
weird
in the
world
I
never
had

thoughts
beyond
just
you know
mainstream
Christian
thinking
for the
most part
just
trying to
be a
nice
regular
person
for the
most part
you know
back then
I was
pretty
young
young
and dumb
I'm a
college

student
you know
my mind
was
you know
in many
places
I was
going to
church and
reading the
Bible and
I was going
out and
partying like
a rock star
and so I was
basically
you know
just living a
normal
sheeple life
as a
youngster
oh those
were the

days
man I
wish I
could just
go back
to the
90s
I really
do
anyways
you know
back then I
wasn't thinking
about a
whole lot
of you
know
war kind
of stuff
it was
basically
the
Paxa
Americana
between the
first Gulf

War and
the second
Gulf War
wasn't a
whole lot of
reason to be
thinking about
terrible things
but
after 9-11
and after
seeing a lot
of incredible
things
you know
my mind
basically went
into
a wartime
setting
and I
think
it was
reasonable
to recognize
the situation

as a
war
and of
course
then my
outlook
kind of
changed
it wasn't
all about
loving
everybody
and hugging
everybody
and all
of that
anymore
it was
like we've
got a
problem
here on
planet
earth
something
must be

done
and
I was
definitely
feeling like
something
was
wrong
with the
matrix
but
generally
speaking
it takes
a normal
background
to be
able to
make it to
the next
level
I mean
you can't
just be
a sociopath
you know

all your
life and
then expect
to
graduate
in this
type of
vocation
sometimes
sometimes
it's tough
thinking of
the right
words
you have
to choose
your words
carefully
so it
makes me
pause
it's not
like talking
about the
weather or
sports or

something like

that

but

you know

if you've

been a

sociopath

all your

life

you know

I mean

this is

probably not

the right

vocation

for you

but

going to

war

will make

you a

time

will turn

you into

a type

of sociopath

I think
you're not
going to be
the same
you try
you know
you try
to you
know
hold
yourself
together
and
act
normal
you know
and just
kind of
go with
the flow
you know
going back
to Moses
and Deuteronomy
talks about
you know

some of the
raids that
they did
on
on enemy
cities and
villages
and they
they killed
everyone
even the
little ones
even the
children and
you know
all the
cattle and
you know
sometimes they
took the
cattle but
sometimes they
just slaughtered
everything
like a
genocide

and they
did that
physically
like you
know
they put
the sword
through all
of these
people
themselves
not sure
if anyone
can imagine
what that
would be
like
calling an
entire city
or village
I mean
even if it
was only
like you
know
a few

thousand
people
going
around
killing
everyone
with a
sword
or some
kind of
you know
blunt
instrument
seeing the
blood
and hearing
the screams
and all
of that
and that's
going to
leave it
you know
that's going
to leave
an impression

but we
don't really
you know
see it that
much
in the
later books
of the
bible
or the
later books
of moses
we don't
really see
like you
know like
it's had a
psychological
impact
it's just
kind of like
the way it
is
so it
takes a
certain

maturity
to be
able to go
through that
and not
lose it
I guess
and that's
the art
of war
telekinetics
is a little
cleaner
in a sense
but it's
war
nonetheless
and so
it's tough
you know
not
you know
being
a sociopath
in a
long

war
because
you end
up doing
a lot
of things
that you
normally
wouldn't
do
I've
recommended
a lot
of
bad
things
on a lot
of bad
people
the original
version of
myself
probably never
would have
been able
to justify

that
me as
a youngster
in Fargo
but today
it's like
I don't
feel like
there's much
choice
especially
after everything
that's happened
recently
almost feels
like
confessions
of a
you know
the third
kind
or something
but
that's
what this
podcast

is today
confessions
of
of a
spiritual
warrior
you know
growing up
I watched
a lot
of Star
Trek
and I
was always
thinking to
myself
you know
if we were
ever to
meet
alien
civilizations
it would
be like
cool
it would

be like

Star

Trek

you know

but instead

it feels

like

I've

encountered

the

Borg

something

along

those

lines

feels like

there's

nothing but

hostile

enemies

out there

and

you know

this is

really

kind of

taking it
pretty far
without a
whole lot
of justification
but what I
can tell you
is that
we're not
alone
and whatever's
out there
is definitely
hostile
like some
kind of
empire
of darkness
legions
of
civilizations
spanning
millions
billions
trillions
of light

years
and millions
billions
trillions
of years
were like
the late
arrivals
perhaps
the secret
weapon
and hopefully
with any
luck
eventually
you'll
see this
for yourself
a lot
of people
have
come on
the record
saying
they've
had

some
type
of
experience
that was
alien
or demonic
in nature
certainly
not the
only one
but fighting
these things
instead of
bowing down
to them
is quite
another story
and it's
become a
very ugly
war
at least
for me
this is
you know

a war
that's been
going on
for quite
some time
in my
opinion
but
things I've
seen
and the
things
I've
done
it's
pretty
ugly
but it's
a war
and there's
only one
way to
win a
war
and that's
annihilation

we didn't
win World
War II
by
you know
going
half at
it
we threw
everything
into it
we
absolutely
annihilated
the enemy
torched
and burned
and destroyed
everything we
could
nothing was
off the
table
absolutely
nothing
firestorms

basically
devoured
mega cities
of the
time
tens
of
thousands
if not
hundreds
of
thousands
basically
burned
in the
night
no escaping
the
inferno
when the
city is
napalmed
and the
like
and that's
basically

the only
way to
win a
war
and so
and there's
a lot to
say and
I can only
tell you so
much at this
stage
given that
we're pretty
early in
this podcast
series
and to
be quite
honest
telling you
the things
that I've
seen
done
and experienced

over the
last year
and a half
of intense
spiritual
warfare
seems
kind of
inappropriate
I'm not
sure how
many of
you out
there know
a veteran
that went
to war
in Iraq
or something
and
you know
maybe you're
tempted
you know
to ask
them

how many
people did
you kill
out there
any women
and children
some people
dare ask
that
some people
don't
you know
some people
think it's
kind of
inappropriate
some people
don't
but one
thing is
for sure
the veterans
don't really
like talking
about it
war is an

ugly business
and even
if they were
to tell you
all of their
different war
stories
I mean
many of us
have seen
the videos
we've seen
the action
we got an
idea of what
was going
on out
there
but even
if a veteran
were to tell
you the war
stories
you know
of how many
enemies

you know
they took
out or
you know
what kind
of situation
they were
in
you know
maybe you'd
believe them
maybe you
wouldn't
maybe you'd
appreciate what
they're talking
about
maybe you
wouldn't
care
the only
way that
you're going
to care
is
if you

see the
action for
yourself
then you're
going to
care
once you
start seeing
some of
these bad
guys
and there
are definitely
a lot of
them out
there
then you're
going to be
more interested
in knowing
well how many
of them did
you take
out
how did
you do

it
but
talking about
some of
these things
on the
open market
is kind
of
inappropriate
as well
but
what I can
tell you
is that
based on
the intel
it seems
like many
of the
enemy
have
perished
in this
campaign
and it's

a struggle
it's a
struggle
every day
but somebody's
got to do
it
I'd like
to you
know
I'd like to
go on
vacation
personally
I really
do
I've been
on tour
now for
quite some
time
I need
a real
vacation
but
I don't

know how
many people
are out
there
you know
to rotate
you know
in and out
of theater
basically
I don't
think we
have enough
personnel for
a shift
change right
now
it's
kind of
like my
feeling
I'd like
that to
change
I mean
that's why

you know
I'm doing
this Jedi
training
I'm kind
of hoping
that
eventually
you know
some of
you will
have what
it takes
to carry
on
the struggle
because
I feel
like what
I've
you know
jumped into
is like
you know
forgotten
knowledge

in a sense
and most
people out
there will
just
never
be able
to
retrace
these
steps
so we
kind of
want to
make it
easier
for
for people
out there
and I'm
hoping that
you know
as we
expand
on the
internet

with the
ministry
you know
the news
is you
know
it's been
you know
quite the
roller coaster
but now
with the
censorship
and everything
and now
that the
dark side
basically
knows
you know
what we're
up to
you know
they don't
want us
to

they don't
want us
to gain
you know
any type
of following
so we're
hoping that
with the
ministry
it'll be
a little
bit easier
there'll be
less censorship
and you
know
it's
really the
the crowd
that we're
looking for
you're not
going to be
you know
a Jedi

and we use
this fantasy
language because
I think there's
some kind of
appeal to it
but it's
not you
know so
far from
you know
what
the movies
we're portraying
a little bit
but it's
kind of like
that
but I think
that you
know
the Christian
market is
the right
gene pool
if you will

for this
type of
advanced
training
and I think
telekinetics is
probably the best
way to describe
it in you know
modern vernacular
in a sense
peaks people's
interest
and
it makes
them
want to
think about
what's
possible
and I think
we do a
pretty good
job
you know
making it

sound convincing

and so

I feel

like

I feel

like with

some time

we'll be

able to

get some

people

to another

level

and that

would be

nice

I mean

if there

were like

you know

a few

people out

there

that were

basically

where I

was
a couple
years ago
before
everything
just really
started to
get crazy
think
I could
go on
vacation
I need
a vacation
but
if I
let up
then
we're
heading back
into a real
dark winter
it's kind
of creepy
and sometimes
I do

little experiments

and I just

kind of

you know

focus on

doing other

things a little

bit

and not so

much on the

telekinetics

and I just

wait to see

what happens

in the

matrix

and

they take

full advantage

of it

how does

that work

exactly

you might be

asking yourself

how does that

work

you know

sounds

sounds

grandiose

there

Johnson

well

not that

long ago

we were

taking calls

on the

telegram

you know

and I was

basically

just doing

that

I was

spending

a lot

of my

time

just

talking

to
people
getting
a feel
for what's
going on
out there
and I
wasn't
doing a
whole lot
of
action
in
theater
and
progressively
I mean
things were
getting worse
and worse
you know
in the
news
and all
of that

and
more and
more raids
and you know
the dark
side was
getting bold
again
and
I think
about four
days ago
or five
days ago
I really
started
getting my
act together
again
and spending
time
in theater
doing sessions
and the like
and you know
that's something

that we'll get
into in the
future
but what
does that
comprise of
exactly
well
I don't want
to you know
give out
too much
information
but
what I will
say for
example
is that
the planet
is a
theater of
war
what is a
theater of
war
I mean

this is
kind of
like old
you know
old school
vernacular
but a theater
of war
is just
basically
you know
the battlefield
what's you
know
what's a
battlefield
in this
war
we'll just
say that
the planet
is a
battlefield
in this
war
and

this
planet
is
basically
under
occupation
and has
been invaded
by
all sorts
of
you know
evil
forces
and
you know
this is
on
the real
local
level
just like
it's on
you know
a more
regional

state
international
level
there are
different
levels
of
spiritual
wickedness
that we're
fighting
against
but it's
like a
legion
there's
just
you know
enemies
everywhere
like in
a war
you know
in Vietnam
I mean
they're

just

Viet Cong

we're

everywhere

jumping

out of

the

bushes

it's

basically

like

that

you got

big

enemies

you got

small

enemies

you got

everything

in

between

and

these

things

basically

have an
influence
on
what's
happening
on the
human
domain
much
of the
you know
much of
the people
around you
are basically
proxies of
the dark
side
and they're
empowered
by
this
enemy
you can
call it
coupling

you know
symbiotic
relationship
or whatever
but
essentially
the dark
side is
empowered
by
this
invading
occupying
alien
demonic
spiritual
force
and it's
like you
know
it's like
an infestation
of a
hive
of
all sorts

of different
types of
enemies
we're not
going to get
into too
many specifics
right now
but
basically
well
like I said
we're not
going to
get into
too many
specifics
because
this
would
take
a lot
of
time
to
talk

about
and
eventually
we
will
talk
about
it
but
the
idea
is
basically
to
attack
these
enemies
and
the
result
is that
you know
all of
these
proxies
are

less

empowered

they're

getting

less

information

they're

getting

they're

feeling

you know

less

confident

and so

you know

it has

it has

an impact

it's not

you know

it's not

an end

all

solution

in a

sense

because
you know
the
the vast
numbers of
enemies
that we're
up against
is just
you know
it's in the
billions
or trillions
or something
but what
you can
do is
you know
kind of
push them
back
and
try and
you know
hold the
lines

here on
planet
earth
at least
and
you know
give the
good guys
as much
of an
advantage
as you
can
but of
course
all of
that
takes a
lot of
time
and effort
and
you know
I mean
that's
basically

all you
do
sometimes
but before
you can
get into
like a
bigger
theater
of war
I mean
you really
gotta
you know
start
with the
little
stuff
and
so
like I
said
before
you can
run
or fly

you gotta
learn how
to crawl
and walk
and so
you know
you can't
engage
an enemy
like this
when
you know
your foundation
isn't
you know
totally solid
and you're
not
you know
ready
to confront
this kind
of evil
it's
tough
but you know

some people
are made to
fight and
some people
aren't
I mean
that's just
the way
it is
everybody
can do
something
but
you know
the more
experience you
gain
you know
the tougher
things get
you know
the more
you're gonna
level up
and eventually
you know

things basically

become

pretty

enormous

and so

you know

we've kind of

given people

a few clues

on you know

what you can

do

you know

in the local

kind of

setting

and

you know

that's

definitely

gonna draw

attention

your way

and you're

gonna be

forced to

defend
yourself
and you
know
think of
new ways
to survive
basically
and to
fight back
and
you know
with the right
amount of
faith
things will
be revealed
to you
and you'll
be given
you know
new talents
and new
tools
for the
fight

and things
just kind of
scale up
from there
but before
you can
start
you know
really having
an impact
on a big
theater
you gotta
you gotta
think about
what's happening
around you
and so
the road
really begins
by
knowing the
Bible by
heart
and then
using discernment

to figure out
everything you
need to figure
out
and
you know
for a lot
of people
out there
that basically
means you
gotta unlearn
some of the
things that
have been
you know
introduced
into your
mind
through
mainstream
religion
that's my
opinion
I feel
like

where most
Christians are
right now
they're not
really practicing
what Jesus
was preaching
they're
practicing
what
modern
churches
are preaching
and
it's not
exactly the
same thing
of course
the big
disadvantage
of
being in
the mindset
of mainstream
Christianity
is that

basically

you're

you're

stuck on

on

you know

on the

ground

floor

for the

most

part

for the

most

part

I think

if people

do it

you know

really well

I think

that

you know

they end

up being

you know

real good
decent
people
it's just
that
they're not
going to be
able to
tap into
their full
potential
because they're
not even
you know
going there
and
look I mean
that's another
you know
kind of
topic
because
doing good
has an
impact
on

the
environment
around
you
doing
good
has an
impact
on your
community
doing good
has an
impact
you know
in many
different
ways
not only
in this
world
but also
it ripples
kind of
like
in
into the

spiritual
world
and it
can have
a huge
effect
I mean
you can
be like
you know
a huge
beacon
or a
lighthouse
and
not even
know it
really
just walking
around
just being
you know
a good
normal
person
but the

bible
tells us
that
one
sinner
can do
a lot
of damage
one
sinner
can
basically
undo
a lot
of good
you know
just one
bad
apple
can
basically
take out
a bunch
and so
in the
bible

we're
called
to
destroy
wickedness
in all
places
it's not
even a
question
should we
destroy
wickedness
I think
that
you know
there's
definitely
times
where
you want
to be
merciful
and you
want
to help

people
find
their
way
and there
should be
room for
repentance
and there
should be
room for
conversion
and we
should try
and I think
for many years
we've done that
with a lot of
success
until
somewhat recently
and now
society
seems to have
flipped upside
down

now if you
try and
preach
and evangelize
I mean you're
met with a lot
of hostility
up to the
point where
now they're
literally trying
to kill you
it's like
you know
being in Rome
again
won't be long
before they're
dragging Christians
to the
Colosseum
to the
stadiums
for a public
hanging or
something

we're basically
going there
and so
there's
you know
a need
for strong
intervention
and that's
where we
come in
and what
you discover
is that
the problem
isn't just
public education
or politicians
or you know
television
or censorship
but in fact
the problem
is exactly
the way
you know

Paul describes

it

we're not

just fighting

against flesh

and blood

and I think

that's you know

the better

translation

we're not

just fighting

against flesh

and blood

we're also

fighting against

armies

rulerships

principalities

of spiritual

wickedness

feel the dark

side roaming

in the wilderness

out here

you're getting

closer
and so
you know
we're gonna
have to
end this
long
podcast
here
we're gonna
try and
shorten these
up
I think
it's gonna
be better
if we do
these in
like you
know
20 or
30 minute
sessions
rather than
you know
big hour

long
you know
monologues
and the
like
but
you know
as we
do more
of these
we'll get
better
and we'll
refine them
and we'll
make them
more interesting
and it's
not all
gonna be
about war
stories
it's really
gonna be
about ministry
you know

advanced ministry

work and

getting people

where they

need to be

but

anyways

kind of

sidetracking

here

I was

going

somewhere

and all

of a sudden

you know

here comes

the interruption

from the

from the

dark side

but

see if

I can

find that

train of

thought
so we're
talking about
you know
doing it
the right
way
evangelizing
we're met
basically
with a lot
of evil
it's very
difficult
to evangelize
these days
it's not
that it's
impossible
to be a
good person
out there
but it's
becoming
difficult
just to be

a good
person
and hoping
that we're
all going
to survive
as a
community
I think
we need
to survive
as a
community
as a
culture
I think
the America
that we
grew up
in needs
to survive
I think
Christians
need to
survive
I think

we need
to find
our way
out of
this
darkness
and
restore
order
before
it's
too late
and
so
you know
I think
it's
it's
definitely
okay
you know
being a
mainstream
normal
Christian
out there

for the
most part
I mean
there's
some
kind
of
spooky
denominations
out there
I don't
want to
name names
I like
them
all the
same
but
some
of them
are probably
doing some
real
weird stuff
too
and

look

I mean

there's

nothing wrong

with good

people

doing just

normal things

there's nothing

wrong with

them

but I

think

from

you know

that

base

there's

people

that

are

willing

to

do

more

and

you know
what we're
talking about
is slightly
controversial

I mean
there's a lot
of people
that are
going to
want to
spin
this

as
you know
something
that
shouldn't
be
done

and I
ask myself
that question
you know
many times
you know

should it
be done
should I
be doing
what I'm
doing
and the
like
and
you know
it's a
tough
it's a
tough
place to
be
but I
think
you know
what I'm
into
is
scriptural
but
you know
it's not

it's not
the
life that I
would you
know
choose for
myself
if I
could do
it all
over
again
I
think
if I
could do
it all
over
again
I
would
have
stayed
in
Fargo
and I

would
have
just
been
a
normal
person
going
to
church
on
Sunday
and I
wouldn't
have
gotten
involved
with
you know
all the
stuff
that I
got
involved
with
really

I
think
if
you
know
if
9-11
hadn't
happened
you know
I'd
probably
just
be
you know
a
normal
dude
selling
real
estate
somewhere
going
to
church
on

Sunday
and
you
know
and
all
of
that
but
basically
you know
one thing
led to
another
and
here I
am
basically
on the
front
lines
of
you
know
in the
deep

behind

enemy

lines

in

fact

way

out

here

on the

dark

side

of the

planet

fighting

for my

life

you know

trying

to

not only

survive

but to

destroy

the dark

side

watching

you know
all the
sheeple
back home
just
run around
not even
know what
their state
capital is
or basically
what country
they're in
and so
it's just
it is
what it
is
sometimes
you wonder
what are you
fighting for
but it
isn't about
it isn't
about

modern day
America
it's about
the country
that we grew
up in
and it's
about
fighting for
the kingdom
of heaven
fighting
against
evil
it's
about
freeing
humanity
from this
alien
demonic
occupation
but I
still need
a vacation
so

the sooner

I can

train you

guys up

to basically

you know

hold the

lines while

I go on

vacation

or something

you know

it's better

it's better

but it

would be

nice

I mean

but I

don't think

it'll be

anytime soon

knowing the

road

I mean

you know

trying to
describe it
to people
back home
or wherever
in the world
I mean
it's you know
you got a
long road
ahead of you
and hopefully
you know
some of you
are already
like kind
of where
you need
to be
in terms
of knowing
the Bible
and
understanding
what I'm
talking about

when I say
you know
Romanized
Christianity
basically has
you stuck
in limbo
it's not
like you're
you know
a total
pagan
or a heathen
but they
basically got
you spinning
around
you know
worshipping
idols
and
and it's
you know
problematic
problematic
because as

they say
if you're
not part
of the
solution
then you're
kind of
part of
the problem
and you
know
I've
seen
my fair
share
of you
know
demons
being
comfortable
in church
and so
they don't
mind being
in you
know

the modern
day churches
but they
do mind
you know
the real
the real
deal
you know
back in
the day
when
you know
Jesus was
casting out
demons in
synagogues
those people
that were
demon possessed
or basically
afflicted by
demons
we should say
you know
those people

didn't mind
being in
synagogues
what they
did mind
was
Jesus
like right
away
I mean
it's like
whoa
and
you know
they
they did
mind
his
disciples
but they
didn't mind
you know
going to
church
and you
know

it was
true back
then and
it's still
true today
so
obviously
the church
could be
doing a
better job
in fact
you know
right now
I mean
it's just
a miserable
kind of
situation
as far as
what churches
are doing
I mean
they've totally
been taken
over

overrun
corrupted
there's still
some good
people there
there's still
some saints
there
but
for the most
part
I mean
it's just
you know
it's just
an abomination
and
you know
they basically
have poisoned
the well
and they got
everybody
drinking the
Kool-Aid
so

I know
those are
you know
big words
and you
know
it's a lot
of criticism
but I think
everybody can
see it for
what it is
and I think
they're doing
it on purpose
so that people
don't even
go
you know
they're
poisoning
the well
it's so
bad you
don't even
want to

go
I can't
even tell
you how
many people
I've talked
to
they don't
even want
to go to
church
anymore
just because
they're offended
by what they
see
they're offended
by the
experience
and yet
it's important
for us to be
part of a
congregation
that we come
together and

harmonize
and this is
something that
we'll be able
to do
and these are
going to be
fun little
projects
we're going to
harmonize
and we're going
to start
you know
basically doing
collective action
together
which is going
to be even
more impressive
than what we
can do by
ourselves
and that's
really when the
fun is going

to begin
and that's
you know
that's kind
of like one
of the
the
goals of
this
you know
Jedi Academy
if you will
is we get
enough people
to a certain
level
and then we
start you know
basically singing
on the same
tune
thinking of
the same
you know
kind of
targets

or the
theater
and the
like
and it'll
be more
impressive
than it is
right now
so
that's something
to look forward
to
but we've got
a long road
for most of us
to get there
we're going to
keep dropping
you know
hints and
breadcrumbs
for those
that are a
little more
advanced

so that it's
not just
you know
you know
relearning
what you've
learned
but
for the
most part
it's
it's always
good to go
over the
basics
I mean
instead of
listening to
the radio
and doom
scrolling
and searching
for stuff
on you know
screw tube
and whatever

you should be
listening to
the Bible
over and
over again
listening to
sermons
listening to
preachers
you know
there's a lot
of truth
there
in all the
sermons
there's also
you know
some
you know
blue pills
if you will
to kind of
keep you on
ground level
and so you
you got to be

able to figure
out the
difference
but your
mind should
always be
there
that's your
vocation
that's you
know
that's the
country that
you belong
to
that's your
homeland
so
you should
always be
in the
Bible
going back
over the
basics
going over

you know
Old Testament
New Testament
thinking about
it you know
listening to
sermons and
homilies and
you know
preachers and
and you should
always be kind
of like evolving
in terms of
your thinking
when it comes
to your
faith and
the current
situation and
when you really
get there and
you're really on
that frequency
all the time
then you know

when you see
something evil
and you're
offended by it
you know then
you can you
know push
against it
push back
against it
and sometimes
your words and
your thoughts are
enough to really
make it go you
know run away
but you know
just focusing on
one demon or
one you know
event is you
know small
potatoes
you can scale
that up
but you

basically have
to go through
your own
little apocalypse
it's kind of
like you know
like hazing or
something
you basically
have to go
through it
some serious
tribulation
being a Christian
is supposed to
be a life
changing experience
if it hasn't
been a life
changing experience
for you you
know you're not
doing it right
but once you
really go through
that tribulation

and you know
it happens at
different stages
for you know
for different
people I think
for most people
it's somewhere
around you know
your your
middle ages
you know late
30s early 40s
but once you
get to that
level you've
been a Christian
all your life
you've known
the Bible
all your life
you've been
a believer
all your life
you've been
trying to live

a good life
all your life
and you know
you just
you know
keep moving
on you know
that straight
and narrow
path
and eventually
I mean
you know
you're gonna
get hit
with something
and you may
you know
you may get
you know
some revelations
and some
you know
mini apocalypses
you know
along the way

where you start
getting you know
where you start
seeing that
in fact
you know
there's definitely
something more
to this world
than just
you know
going to work
and and
you know
going out
and stuff like that
but eventually
I mean
it'll it'll pinnacle
to a major
apocalypse
confrontation
with the dark
side
kind of like
you know

when Jesus
was you know
in the wilderness
for 40 days
and 40 nights
it's kind of a
model
and all of a
sudden you know
here comes the
dark side
you know
and you're
confronted with it
and once you
see beyond
the veil
once it
you know
once the
you know
the war
basically
you know
is revealed
to you

for what it
really is
then
you know
then you're
really gonna be
on a
on a whole
different
platform
if you will
but basically
you know
the
the intermediate
goal for all
of you
should be
to get
to that
level
to get
to start
getting there
and so
for some

people it's
just basically
impossible
I mean
you know
I don't want
to be mean
but I really
got to wrap
this up
I mean
this is going
to be like
a five hour
broadcast
but
I don't want
to be mean
but I mean
like people
that you know
basically convert
at you know
24
30 years old
you know

and they
basically
were like
an atheist
all their
life
some of
them
you know
worshipping
the devil
who knows
what
you know
playing with
Ouija boards
and stuff
like that
I mean
you know
I'm not sure
where those
people are
gonna end up
you know
I guess

you know
for them
it's better
just you know
not to be
damned
you know
and condemned
and that's
that's probably
an accomplishment
enough for
you know
for those folk
but
you know
if you've been
on that road
all your life
you're brought up
that way
you stayed
that way
maybe you lost
your way a little bit
and then you came back

you know
I think there
you've got a lot
of potential
because you know
the bible
you've
you know
it's
it's at your core
but it also
makes you dangerous
you know
if you become
an apostate
and you flip
and
you know
you use all of that
knowledge
to do evil
you know
exactly what kind
of evil to perform
you know
you'll kill

you'll steal
you'll cheat
you'll lie
you'll betray
you'll
you know
you'll do all the things
that you know
the bible tells you
not to do
all the things
that you know
the israelites
were condemned for
you know
and you'll be
basically you know
doing all that stuff
you know
then you
you become
a dangerous
agent of the
dark side
and so
you know

that's

that's why

you know

if you've fallen

away and you

come back

and you've fallen

away and you

come back

and doubt

is always kind

of plaguing

your life

you know

that's

you know

that's the

main focus

and I think

you know

we'll

we'll talk

about doubt

you know

over and over

again

but that's
why it's
important that
you affirm
your faith
every day
multiple times
a day
faith comes
from the
spoken word
that's why
you want
to keep
listening
to the
bible
otherwise
you're
tuning
into the
dark
side
and you
know
it'll just

keep
gnawing
at you
and it'll
just like
you won't
even know
why
but all
of a sudden
you'll
be you
know
thinking
about
doubt
and disbelief
and anger
and lust
and things
like that
and you'll
just
you know
it's a slippery
slope

all the way
back down
to the
ground level
and you know
into the
basement
you know
if you're
going towards
the dark
side
so
we all
start at
the ground
level
some people
go down
towards hell
you know
through the
sub basement
levels
some people
you know

start climbing
make it to
the second
floor
the third
floor
and
you know
it's tough
I think
we've all
kind of
you know
been there
for the most
part
but you
gotta take
it seriously
and
you gotta
quit acting
like you
know
everybody else
around you

for the most
part
so
so you know
listen to the
bible
go on some
nature walks
and contemplate
and think
and
be a little
bit of an
introvert
for a while
and
let it all
kind of
simmer
you know
when you
make a good
stew
or a good
you know
soup

or whatever
you know
you gotta let
it simmer
and
and
you know
get all the
juices
kind of
you know
in there
and flowing
and whatever
and so
that's basically
you know
what you gotta
do
you gotta
you just gotta
keep
you know
consuming the
bible
and the

word

and

you know

and just

let it simmer

and let it

grow

and

get in touch

with like

nature

and the

natural world

and creation

you know

look at the

stars

look at the

moon

you know

think about

the sun

think about

the world

think about

the universe

think about
you know
and start
you know
spending your
time there
all the doom
scrolling
and all of that
is just
wasting your
time
for the most
part
you know
we provide
that as
kind of like
you know
emotional support
for people
out there
we've been
doing the
news for so
long

that you know

it's just

it's kind of

our way of

hacking into

the matrix

and countering

the narrative

and all of

that

but

you know

it kind of

brings you

down too

and

you know

it's probably

the worst

profession

out there

you know

journalism

and all of

that

so

for a multitude
of reasons
so it's
it's not
where you
want to be
the bible
is where you
want to be
thinking about
it
and then
you know
doing something
about it
you know
be charitable
help the poor
you know
preach to
others
you know
all that
you know
is real
basic

if you have
an opportunity
I mean
some people
live out in
the country
in a nice
you know
or fairly
nice location
there's not
a whole lot
of needy
people that
you see
and stuff
like that
you don't
trust the
main charities
out there
you know
do what you
can
but don't
forget about

the little
things
don't forget
about the
little guys
and all
of that
but
eventually
I mean
you're going
to
you're going
to be
who you're
supposed to
be
we'll leave
it there
for this
podcast
appreciate
everybody
tuning into
this
you know

monumental

mega

you know

monologue

here

and

we're going

to do

this real

short

and then

do

another

one

but I

guess

we'll

just

you know

save it

for tomorrow

tomorrow's

another day

and

tomorrow

we'll be

talking about
telepathy
so stay
tuned for
that one
we're going
to do
something on
that today
but that's
basically
like the
precursor
of telekinetics
and it's
also
kind of
what
you know
can lead
people astray
so we'll
have a good
conversation
on telepathy
the telephone

the television

and

telekinetics

till the

next time

if you're

listening to

this

you are

the resistance

there's

we're

oh

we're
