

TELEPATHY AND THOUGHT LIFE INTRUSION (EPISODE 18)

Welcome back to Jedi Training. Today's podcast is on telepathy.

We talk a lot about telekinetics.

And obviously, telekinetics and telepathy share the same prefix.

Kind of like the telephone and the television.

Think about that. The telephone and the television.

Telepathy and telekinetics.

In theory, before you can get anywhere with telekinetics, you're going to experience telepathy.

Sounds strange and unusual.

What is it exactly?

In theory, telepathy is brain-to-brain communication.

Without words, without sounds, without...

Technology.

Just natural brain-to-brain communication.

Or consciousness-to-consciousness communication.

And so, telepathic messages show up in your brain like a thought.

They get delivered as a thought.

Where they come from is not always clear.

And actually distinguishing your thoughts from thoughts that are being delivered...

Can sometimes be...

Problematic, to say the least.

If you've ever felt like there's been an intrusion in your thought life...

Then you might be the victim of telepathy.

Telepathy.

Now, telepathy is generally referred to as the sixth sense.

Which means that it's taboo.

It's not...

It's not...

Something that's sought after.

Telepathic abilities, really.

We don't look to communicate with people telepathically.

Usually.

Some people do.

Some people stumble upon telepathy.

And some people...

Some people...

Exploit it.

Quite literally.

In this day and age.

Your thoughts are not your own.

That's a scary thought.

I mean, you might think that...

You at least have some privacy...

In your brain.

But...

It would appear that...

That is not the case.

Who is tapping into your brain waves...

Is another question.

Not sure if we're going to have enough time for that in this podcast.

But generally speaking...

Telepathy is viewed as...

Something that's negative.

We don't seek to...

Use it.

We don't seek to exploit it.

But...

You should be aware that it's there.

And...

Quite simply...

It is...

The definition of...

Double-mindedness.

When something has intruded into your...

Thought life...

That is...

Double-mindedness, in a sense.

There's probably other definitions of double-mindedness.

Like...

Being a hypocrite.

Or...

Something like that.

But...

When there's something else...

Thinking along with you.

In your brain.

That...

That...

Could be described as double-mindedness.

And that is...

Definitely not where you want to be.

You don't want to be entertaining...

Conversations...

With...

Other people in your brain.

Now...

Demons and devils and the dark side...

Use telepathy all the time.

That's why it's important that we do talk about it.

Because...

As a...

Spiritual warrior...

As a Jedi...

You're going to run across this.

Believe it or not.

And when it hits you...

It's...

Pretty disturbing.

Somebody's talking to you.

And so there's really kind of like...

Three different levels of telepathy.

People that just don't even know it's out there.

People that encounter it...

But don't know what's going on.

And then the people that are basically using it...

Like a telephone.

Now basically all of the dark side...

All the people in the matrix...

The entire hive mind...

Is...

Being directed by...

Telepathy.

By a voice.

Something is telling them to go somewhere.

Something is telling them to do something.

And it's more than just like...

A feeling or a driving...

Kind of...

Emotion.

Like you have to do something.

They are literally getting...

Verbal commands.

Go here.

Do this.

Say that.

Or shut up.

Etc.

Etc.

This is at the core of the hive mind.

This is at the core of...

What's managing the proxies around us.

There's a voice...

That is essentially echoing in their brains.

And this technology...

These demons...

Devils...

And other things...

Will...

Try to...

Influence you...

Attack you...

Control you...

Through telepathy...

Or synthetic telepathy.

Synthetic telepathy would...

Mean that it originates...

From some kind of technology.

Whereas...

Real telepathy...

Originates from...

Either...

A living creature...

Fleshly creature...

Or...

Something that was...

Previously living.

Some disembodied...

Spirit.

The question that you might be asking yourself is...

As good guys...

Do we ever have conversations with...

The good guys...

Upstairs?

It can happen...

But it's very rare.

Maybe we shouldn't say rare...

But...

It can happen.

But the dark side will...

Pretend...

Like they're the good guys.

And try and...

Sell you on ideas.

And so you have to be...

Careful about...

This kind of thing.

That's all that we can say.

Beyond that...

You really have to use your discernment.

But...

Trust me when I tell you...

That they will try and...

Put you in a bad place.

They will try and manipulate your thought life.

And tear you down that way.

And set you up for some kind of...

Honey trap or ambush.

And so...

Listening to the thoughts...

That are in your head...

Sometimes might be the last thing that you'll do...

Before...

They get you.

How do you determine...

What is your thought...

And what is a thought that is coming from...

The exterior...

That is a difficult...

Analysis.

Basically...

You have to go out...

To some place...

Where there's really not a whole lot of...

External stimuli.

Like out in the woods...

Or the country...

Or...

Nature or something.

Far away from people.

As far as you can get.

Go somewhere...

And try and think about...

Absolutely nothing.

Force yourself to think about nothing.

Zero.

Just blank out the mind.

That's your baseline.

You want nothing.

You are thinking of nothing.

That is your goal.

And just wait.

Wait to see...

What kind of pressures...

Arise.

You may even feel the sensations.

You may even feel...

Like there's something...

Trying to probe inside you.

In your brain, I should say.

Then you start getting an idea...

Of what might be yours...

And what might be coming...

From something else.

Being able to control your thoughts...

And...

Know that you're originating your thoughts...

Is a...

Is more difficult...

Than you might think these days.

But it's basic psychology 101.

Try and filter out what's yours...

And what's not.

Generally speaking...

And this is almost cliché...

When thoughts are coming in...

From...

The exterior...

You almost feel it coming in...

Through the left brain...

Or the right brain...

And they even try and...

Do the good cop, bad cop...

Paradigm.

Kind of like...

A devil on one shoulder...

And an angel on the other.

And...

To a certain extent...

Whatever's coming in...

Tends to be bad news.

And so...

If you ever become a victim of...

Telepathic intrusion...

An intrusion in your thought life...

Then...

Hopefully...

You can think about it.

But generally speaking...

Telepathy is bad news.

That doesn't mean that you won't get...

Downloads or...

Affirmation or...

Validation or things of that...

That nature but...

Beware.

Because most of what's coming in...

Right now...

Is...

Of the dark side.

But...

Telepathy is the precursor of...

Greater awareness.

Knowing that it's out there...

Gives you an idea...

Or a notion that...

Perhaps your brain can do something more than...

What's in the textbooks.

And that really is...

What telekinetics is all about.

What we will say is that...

Telepathy does...

Piggyback on...

Electromagnetic waves.

Your brain functions...

Your brain functions at around...

15 hertz...

Depending on...

Your brain waves.

And so...

It generates...

What could be described as...

A wave pattern...

That...

Registers on the electromagnetic spectrum.

Telepathy...

And so...

Telepathy...

Like telekinetics...

Will run through electronics...

If you want it to.

And...

Technology...

Will be used...

Against you.

Telekinetics can run through...

Copper wire...

And so can...

Telepathy...

A lot of people have the impression...

That the television...

Is at times...

Talking to them.

It's not their imagination.

And this is something...

That we'll get into...

In future broadcasts...

Because...

It's basically a...

Kind of a place to start...

Practicing...

Eventually.

Not so much the telepathy...

You're not really looking to have...

Conversations with other people...

In this nature...

But...

Telekinetics is...

Known to work with...

This technology...

Telephones...

People were doing it...

Way back in the day...

When the telephones...

Started coming out...

Seems almost like...

You know...

Ridiculous...

Why would you need to use...

Telepathy on a telephone?

And...

It's just another form...

Of encrypted communications...

And...

Essentially...

You know...

This is what distinguishes...

The elites from...

The regular class...

They'll test you out...

You know...

Are you telepathic?

Et cetera, et cetera...

In any case...

Technology...

Such as the telephone...

And the television...

And...

Anything and everything like it...

Which is basically...

You know...

Modern communications...

On the...

Internet...

Can be subject to...

Telepathy and...

Telekinetics...

And so...

You can...

Attack through these...

Mediums...

And you can get attacked...

Through these...

Mediums...

Again...

We'll get into all of that...

In a future podcast...

Awareness really kind of like...

Builds...

The momentum...

For...

Future conversations...

And so...

Being aware that these things are...

Possible...

Will...

Basically...

You know...

Open up that...

Avenue of attack for you...

Pro and con...

A lot of people are being attacked...

By telekinetics...

They're being molested through...

Telepathy...

And they don't even really know it...

Or if they do know it...

You know...

They're kind of wishy-washy about it...

But chances are...

You've run into some of this...

Already...

And you just...

Probably didn't know what it was...

Or...

Weren't sure...

And it's real...

You know...

Difficult to describe the feelings of...

Telekinetic attacks...

But you definitely feel that...

You know...

There's something...

There...

We'll have to...

We'll have to do more...

On this subject...

In the future...

We've...

You know...

Provided a few examples...

On video...

With the general audience...

We'll try and do...

You know...

Some video...

Sessions...

For...

For this Jedi Academy...

In the future...

But...

Right now...

We're just really kind of...

Talking about...

Ideas...

Rather than...

Showing you...

Concrete examples...

But...

The short of the long of it is...

Is that...

Telepathy is bad news...

But...

It is...

It is...

A type of precursor...

To telekinetics...

If you can communicate...

With other people...

And even...

Other species...

Through tele...

Through telepathy...

Then...

Perhaps you can do more...

And we can...

Assure you that you can do more...

You can do more...

But it's in the same genre...

You know...

You're...

You're using your brain...

For things that...

You know...

Aren't...

Readily understood...

And...

You know...

There's a lot to say...

About this subject...

Unfortunately...

We just don't really have...

A whole lot of time...

For this podcast...

But...

You can...

Get...

Ideas...

That come to you...

From...

All sorts of things...

I mean...

Even...

The animals can kind of...

You know...

Communicate ideas to you...

Telepathically...

We strongly feel that...

Animals are communicating...

With one another...

Telepathically as well...

There's a lot of evidence of that...

If you...

You know...

Pay attention to cats...

Or...

You know...

Some other animals...

I mean...

They're definitely...

Communicating...

By other means...

And...

There's a real interesting study about...

A group of islands in the Pacific...

Where there are...

You know...

Monkeys or...

Apes...

There's like different tribes of...
Monkeys and apes...
On each of these islands...
Which are close to one another...
But they're not physically connected...
And these tribes...
You know...
Can't physically come into contact...
With one another...
But what scientists have discovered...
And this is kind of like...
The observer effect...
Following these...
You know...
Monkeys around...
Is that...
If...
One tribe discovers...
A new technique...
Or a new...
Technology...
The monkeys...
On the other islands...
Will soon discover that...
Technique and technology as well...
We're gonna have to try and find that...

It's almost like an urban legend...

But it's out there...

You may have heard of it...

But essentially the...

The theory there...

Is that...

Somehow...

These monkeys are...

You know...

Communicating ideas...

Telepathically...

Whether they're doing it on purpose or not...

If it's just kind of like...

Drifting in the wind...

Is another story...

But...

There's definitely a lot of studies...

When it comes to telepathy...

And...

Again...

The brain is capable of...

Much more than just...

Playing video games...

Driving a car...

And...

Going to work...

And all of that...

The question is...

Are you aware?

Can you practice?

Do you have some kind of ability?

A lot of things come into play...

And...

You know...

Certain things...

Kind of like...

Open up your mind to that...

More than others...

And...

We're not going to spend a lot of time on...

That right now...

Wish we had a little more time to talk about it...

But...

Essentially...

What's important to understand is that...

Telepathy exists...

It's a weapon that will be used against you...

And...

Here's the real...

Real important thing...

If you ever do get...

You know...

Involved...

In this war...

In a real way...

You'll have to know that...

There's really no way to protect...

Your thought life...

Not really...

And...

What you're thinking...

What you're calculating...

What you're planning...

Is all pretty much sniffed...

In real time...

So if you're thinking...

Okay...

Tomorrow I'm going to do this...

And I'm going to go...

There...

And...

Or I'm going to escape...

Or I'm going to...

You know...

Buy this...

Or whatever...

They know it...

Immediately...

And they'll plan accordingly...

And so...

They're basically always...

Going to be two steps ahead of you...

If you're planning...

You know...

Two steps ahead of yourself...

And so...

Our advice...

Is that...

You start being a little more random...

A little more...

Um...

Let's just say...

Carefree or something...

And not plan so...

So far ahead...

You know...

Jesus tells us that...

Don't worry about tomorrow...

Tomorrow will take care of itself...

The troubles of the day...

Are enough to contend with...

And so...

That definitely...

You know...

Resonates here...

Don't plan too far ahead...

Because...

You're just basically...

Telling the enemy...

What you're going to do...

So you can kind of...

Think about it...

Like you know...

Generally speaking...

But try and avoid specifics...

If it really matters to you...

And...

You know...

If...

It really becomes intense...

Out there for you...

There are certain things...

That you can't avoid...

You know...

But the less...

You know...

Lead time that you can give...

People...

Or the enemy...

We should say...

The better...

When it comes to...

You know...

What you'll be planning...

And it's kind of just like...

Telegraphing...

You know...

A pass in basketball...

Or something...

You know...

They're going to intercept it...

And so...

If it really matters...

If it's really important...

They'll be there...

And so...

You know...

Your thoughts are...

Your thoughts will essentially...

Betray you...

In many different ways...

And...

You know...

You can kind of expand on that...

And say that...

Your enemy knows you...

As well as you know yourself...

If not better...

So they know your weaknesses...

They know...

You know...

Pretty much everything about you...

And...

That means you really have to run a perfect game...

You know...

You run a perfect game...

Then it's not such a big deal...

What does that mean...

To run a perfect game?

It means...

You know...

Being as close to the Bible...

As you can be...

That's the only way to make it through this thing...

So...

So the enemy will exploit your thought life...

And they will invade your thought life...

They will try and manipulate you...

If you really become a threat...

And...

You know...

Generally speaking...

They don't make everybody aware that...

You know...

This is going on...

But...

If it becomes necessary for them to try and manipulate you...

Then you will have...

An event...

An event...

And so...

I guess this is kind of like a warning...

Just like every other podcast...

Of you know...

What you're going to be facing...

I mean...

It's monumental...

But...

It is what it is...

And...

You know...

People will try and describe this...

And...

Simplify this...

And...

Dumb this down...

Into other...

You know...

Terms...

And...

Stuff like that...

But...

It's really happening to people...

People that...

Accept the programming...

Are considered normal...

And people that don't accept the programming...

Of the hive mind...

Are basically...

You know...

Described as outcasts...

Or crazy people...

And so...

It's just like everything else...

You know...

You try and...

Talk about the issues with people...

And they gaslight you...

And they're like...

Oh you're crazy...

You know...

You're some kind of conspiracy theorist...

And...

You know...

It's you...

Not them...

Kind of thing...

So...

You know...

The same applies here...

And...

Just about everything else...

We'll have to leave it there...

For this podcast...

Appreciate everybody...
