

AMBUSHES AND HONEY TRAPS (EPISODE 23)

Welcome back to Jedi Training. The title of this podcast is Ambushes and Honey Traps.

Just about anything that you'll get into will be a target for interception by the dark side.

They will try to attack you every which way that you can imagine.

Through the food, through the water, through energy weapons, so on and so forth.

And they will try and assassinate you, make it look like an accident, make you disappear.

And so everything you do, everywhere you go, everything you book online is subject to interception.

Especially once you enter the battlefield. The telekinetic battlefield.

Now, we do some of our training and the like out here in the middle of nowhere.

What you're looking at here is a maze, a grid, in the middle of a pretty large forest.

And basically all of these roads go to nowhere, except there's this little main road over here.

And we're chilling way out here, way, way away from the death towers and the dark side.

And as we were closing up shop, closing up the workshop, and getting ready to take off back to civilization.

Let's see if we can zoom in here.

All of a sudden, a lynch party shows up.

Now, in this location, you hardly see anybody.

You get a few visitors.

You get a few people walking up and down these trails that go to nowhere.

And maybe you'll see three or four cars an hour at the peak of the day.

But as I was leaving, I'd seen something that I'd never seen before.

And that's saying a lot, really.

I see what looks like a parade of cars coming down this road.

And I'm trying to get on this road to go out.

It's the road that goes back to the main road.

And at first, it looks like one or two cars.

And I'm thinking, okay, we'll just chill.

I'm just chilling right here with the car.

And then I notice that it's like an endless line of cars coming here to this location.

And it's just about night.

The sun is barely set.

It's past dusk.

It's really, you know, when the dark side comes out to play.

And I'm waiting for these cars to arrive, not really thinking about it.

And the first car goes by and I see the license plate.

And it's basically like triple six, a little red car.

And then another car comes through.

And then immediately this guy parks right here.

And essentially this is the only other way out of this roundabout that goes eventually to another road.

But there's a gate here.

This guy stops right here.

And attempts to close the gate.

But as I see the second car pull in.

And then I realize that the line of cars is basically endless coming here.

I'm like, you know what?

I'm going to take the long way home.

And so I turn around and I come over here.

I see this guy trying to close the gate.

And I just zoom on by.

This might have been the scene of a horrific battle.

Perhaps a last stand.

I just barely escaped.

Now you might think, you know, a lot of things, a lot of things were possible.

I didn't stick around to find out.

But the fact that this guy, just a normal civilian, shows up, parks right here, attempts to close this gate as the other cars are coming in.

It didn't look right.

Any case, wherever you go, you basically have to be prepared to make your last stand.

Essentially.

In theory.

And so, have your go bag ready.

Stay organized.

Stay sharp.

Stay ready.

Have ways to defend yourself.

But, understand that the war is real.

And you're going to see things that you've never seen before.

Things that are going to scare you.

They want to scare you.

And you have to be prepared for that mentally.

But also be prepared for the enemy to jump out of the bushes at any location.

Now, we're getting ready to move into the second season.

Where we begin to really talk about things that will make a difference on the battlefield in terms of telekinetics.

But you have a lot of homework to do out there.

You have a lot of preparation to do out there.

And perhaps some of you are eager to move to the next level.

And perhaps some of you are not.

And so, we're going to do a ministry where we focus on people understanding the Bible better.

And that will allow you to grow.

In the right direction.

But for those that want to know how to defend themselves in the spiritual war.

Then the next season is going to be mind-blowing.

But you have to be ready for it.

You can't enter this battlefield like some little girl.

Pardon the expression.

Ready to cry as soon as you break your nail or something.

Because it's going to be rough.

Jesus tells us to be prepared to give up everything and to carry your cross.

To deny yourself.

And entering a war is...

Like that.

Notice this face here.

You can almost see a face right there.

Maybe you'll have to zoom in and squint or something.

But...

Look at it sideways.

But just look at it until you can see the face.

One eye.

Two eyes.

A nose.

A mouth.

Two little horns almost.

Spooky little area.

Spooky indeed.

Bunt.

Never go...

Someplace unprepared.

That's definitely the lesson of the story.

Especially...

You know, once you...

Enter the battlefield.

Again, we don't want to...

Push you into the pool and watch...

And watch you drown.

We want you to be able to swim and to be productive out there.

But...

It's...

It's modern warfare.

We'll be back with another podcast real soon.

Until the next time.

If you're listening to this...

You are...

The Resistance.

Hehe...

...

■jasla.
