

THE SWORD OF THE SPIRIT (EPISODE 27)

Welcome back to Jedi Training. The title of this podcast is The Sword of the Spirit.

As Christians, we face many enemies. Some are physical, some are people, some are spiritual entities, and some are things from other worlds.

And as Christians in the spiritual war, we're forced to confront these enemies head-on.

Eventually you'll realize there is no running from it, there is no hiding from it.

Many of you have been victimized by this enemy already in the form of energy weapon attacks, whether you realize it or not.

Headaches, body aches, extreme fatigue, sleep apnea, heart palpitations, just to name a few of the symptoms of the genocide.

It is an extermination and we are the primary target.

It is a war, and some people realize that and other people don't.

But given that it is a war, our role is to not only survive, but to fight back and to inflict damage upon the enemy.

The only way to win a war is to annihilate the enemy.

And the point of Jedi Training is to get as many people on the front lines as possible.

The more people we have manning the walls, the better.

We have many weapons at our disposal.

Discretion, wisdom, kindness, charity, virtue, to say the least.

But sometimes it has to get more intense than that.

Sometimes the conflict is physical.

Sometimes the conflict is spiritual.

Sometimes the conflict is mental.

In fact, that is probably the main battleground for all of you, is what's happening in your mind, your thought life.

Demons and unclean spirits and others are constantly projecting unclean thoughts and distractions and temptation into your mind.

Indeed, the mind is the greatest battlefield.

Our role, obviously, is to overcome that.

To overcome the battle in the mind.

To overcome the battle in the physical world.

To overcome the battle in the spiritual world.

We have to go everywhere and be victorious.

That's what we're called to do.

Now, of course, one of our greatest weapons is prayer.

In Ephesians chapter 6, it talks about the power of prayer.

And prayer should never be underestimated.

And we should always be asking for victory.

We should always be asking for solutions.

But the Almighty already knows what you need.

And so, we're metaphysical creatures in a metaphysical world.

And we have to meet our needs to a certain extent as well.

When we're hungry, we don't pray for a pizza.

I hope we don't pray for a pizza out there.

Prayer is especially useful when we reach our limits to what we can do physically and emotionally and mentally and spiritually.

When we reach our limits, that's when we really need help.

But if we can do it, we should do it.

Imagine troubling your neighbor every day for your household needs.

Eventually, that neighbor is going to get fed up.

Or any of your friends or family out there.

Eventually, they're going to be like, cook for yourself.

Clean for yourself.

Do your own laundry.

Go do your own shopping.

Go get a job.

Etc. etc.

We're expected to do all of that and more.

Prayer is powerful.

But it shouldn't be abused in the sense of always asking for things that are within your control.

If you're hungry, take care of it.

If you're sad, get over it.

There's no crying in warfare.

Even though we all want to cry sometimes.

And trust me, there'll be times when you want to cry.

There's no room for that.

There's no time for that.

You've got to put your big boy pants on.

Or your big girl pants on.

And be like an adult out there.

And deal with the situation.

Humanity has had to deal with many terrible events.

Wars, famines, plagues.

And the like.

All of our ancestors survived.

The worst the world has had to offer.

But in our pampered modern day lives.

Any little thing seems to just set us off course.

We need to be more disciplined than that.

But getting back to the essence of this podcast.

We're called to fight this war on all fronts.

In the mind.

In the physical world.

And in the spiritual world.

Now many of us don't have experience in fighting in the spiritual world.

We see conflicts in the physical world all the time.

And sometimes we're more than happy to participate.

But when it comes to spiritual conflict.

People don't even know that the issue exists for the most part.

And have no way to address it.

No way to participate.

No way to offer solutions.

No way to do it.

No way to do it.

But essentially the most important part of this war is.

In the spiritual sense.

When Jesus cast out demons.

He was casting out spiritual entities.

From physical people.

Essentially.

Bringing this war out into the open.

Casting them out.

Delivering people from unclean spirits.

Is.

A beginning.

But for many of these people.

That are like a city without walls.

It's certainly not an end.

They can't protect themselves.

They can't protect you.

They can't.

Do anything to stop these demons from coming back.

And so delivering people.

Will only get you so far.

You have to fight this enemy.

That's plaguing humanity.

That's invading this planet.

And that's what spiritual warfare is really about.

That's what Jedi training is really about.

That's what sets.

Us apart.

From everybody else.

We're going after these things.

Like they're coming after us.

The more we come after them.

The better it is.

For everyone.

Not only for yourselves.

For those around you.

But for your community.

For our country.

And for this world.

We must fight this enemy.

Wherever they are.

In this world.

And in the next.

And that's what spiritual warfare is really about.

Now we've been talking about.

Training up your.

Spiritual.

Talents.

If you will.

Getting you to recognize.

The value of.

The energy that flows through you.

There's a lot of different energies that flow through you.

Some are physical.

Some are.

Environmental.

Mental.

And others are.

From our creator.

Being able to.

Focus that energy.

As a weapon.

Against the enemy.

Is where spiritual warfare.

Is at.

And so we've been talking about.

Practicing.

In the form of Tai Chi.

Feeling that energy.

In your hands.

Feeling that energy.

In your body.

We've been talking about.

Projecting energy.

In.

Different podcasts.

But essentially.

The projection of that energy.

Is a spiritual weapon.

The projection of that energy.

Is your.

Sword of the spirit.

Not only your spirit.

But.

The energy that flows through you.

As a Christian.

And of course.

That comes through faith.

And faith comes from the spoken word.

And as Ephesians.

Chapter 6.

Tells us.

The sword of the spirit.

Is the word of the almighty.

Without.

Those words.

Coursing through your veins.

In your brain.

Pretty much.

All the time.

Then your spiritual energy.

Becomes.

Minimalized.

It shrinks.

That's why it's important to.

Immerse yourself.

In faith.

And faith related content.

As soon as you tune in to.

Something on the television.

You're tuning in to.

The dark side.

And that is going to shrink.

Your.

Spiritual energy.

All of a sudden.

Your mind is going.

Where they want it to go.

They're in control.

You're not in control.

And ugly things can happen.

And so all day.

You should be doing things.

That are constructive.

Positive.

And Christian like.

And avoiding all things that are.

Of the dark side.

Of the beast system.

And so that takes a certain amount of discipline.

But essentially.

When you nurture that.

Your abilities will begin to grow.

With faith.

And with experience.

Your abilities will begin to grow.

But doubt.

And disbelief.

And.

And.

Ideas from the dark side.

Will keep you on the ground floor.

But essentially.

In order to.

Fight this war.

You need a weapon.

You need to be.

You need to be able to use those weapons.

And you need to be able to see the enemy.

And so.

This is where everything basically comes together.

And that's what.

All this training is going to be about.

Is bringing it all together.

To a point of focus.

Kind of like a magnifying glass.

That focuses.

The sun's rays.

To a single point.

To start a fire.

It takes many different talents.

To be able to focus.

Your energy.

Into something that is.

Like a weapon.

And so.

You really have to take.

All of these ingredients.

Seriously.

That we've been talking about.

Taking care of yourself.

Physically.

Mentally.

Spiritually.

Doing everything that you can.

To increase your.

Potential.

Some of the things.

You're going to have to do by yourself.

We can't force you.

To listen to the Bible.

We can't force you.

To read the Bible.

We can't force you.

To go out.

Into nature.

And get fresh air.

And go.

On a hike.

We can't force you.

To.

Practice.

Tai Chi.

For example.

We can't force you.

To.

Go into the twilight zone.

We can't force you.

To.

Attack this enemy.

And gain experience.

And basically.

Feel what it's like.

To be in a war.

We can't force you.

To do these things.

And we can't replace.

Experience.

For you.

You have to experience it.

You have to put in the time.

You know.

It's like.

Learning to play the piano.

We can talk to you about.

How to read the music.

What keys to push.

What you do with the pedals.

We can talk to you about rhythm.

And harmony.

And all of that stuff.

But until you start actually.

Doing it yourself.

You're never really going to learn.

And you're never going to get any better.

And so this is like.

Any other acquired skill.

If you will.

Whether it be learning to play the piano.

Or the trumpet.

Or the flute.

Or you know.

Learning how to code.

You know.

On the internet.

Or something like that.

Every acquired skill.

Requires.

Knowledge.

And applied knowledge.

In the form of experience.

And practice.

And this is very much the same way.

And at first.

It's.

Normal to think that.

You know.

This is not possible.

Just like at first.

If I were to tell you.

You got to be like Mozart.

You're going to be like.

That's impossible.

And in theory.

It can take up to 10,000 hours.

To.

Really be good at something.

10,000 hours.

Is basically.

Quite a few years.

Eight hours a day.

Nothing really replaces.

Being a Christian.

All your life.

Being brought up that way.

I think.

Recent converts.

Are going to have a real difficult time.

Being.

A Jedi.

Just because.

There's so many obstacles.

In their way.

There's no replacing.

Being a Christian.

All your life.

There's no replacing.

Being a good person.

And there's no replacing.

Hating evil.

A motivation.

And there's no replacing.

A good person.

A good person.

A good person.

So eventually.

You're going to have to walk through that door.

And deal with it.

And it is an ugly.

Situation to deal with.

But.

Like I said.

Chances are.

Most of you out there.

Are already being victimized.

By this system.

And you don't even really know it.

Or maybe you do know it.

But you're not taking it seriously.

Ephesians chapter 6.

Tells us that basically.

We have to protect ourselves.

From head to toe.

And on top of that.

We need a shield.

We need shielding.

And once you do all of that.

Then you can actually go to.

Attack mode.

And that is the sword of the spirit.

And basically.

It is.

The mental projection of a weapon.

To inflict damage on a target.

Target.

And at first.

These targets are going to be.

Things that you can see.

In front of you.

Eventually.

These targets are going to be.

Things that you'll see.

On the other side.

On the other side.

Of that door.

In the twilight zone.

Going there.

Will become more natural.

Hitting these targets.

Will become more natural.

But.

It's an all out war.

And there are so many targets.

Big targets.

Out there.

That.

Even if we had a thousand people.

24-7.

It probably still wouldn't be enough.

This is a war.

That's been going on.

For.

Thousands of years.

But one person.

Can have a tremendous impact.

And the more people.

The better.

And.

There is no choice.

We have to fight.

So we have to make up.

The numbers with.

Longevity.

Essentially.

But the idea is.

To project a weapon.

Into the environment.

Whether.

It's the environment.

That you're in.

Or the environment.

That you're targeting.

And this can be.

An environment.

That you know.

That you've seen.

That you've heard about.

And it can be.

An environment.

That.

You will see.

Eventually.

In the twilight zone.

In the fifth dimension.

In the second heaven.

What kind of weapons.

Can we project.

Into the environment.

For the most part.

It's.

Stabbing and cutting weapons.

Lasers.

You could probably.

Deploy.

Just about anything.

That you can imagine.

But some things.

Are more effective.

Than others.

And they become.

More effective.

With experience.

Not only.

Can you project.

Weapons.

But you can project.

Fields.

As well.

Bonds.

Force fields.

And the like.

Really haven't been.

As effective.

As.

Weapons.

But it's a good place.

To practice.

But you'll have to imagine.

Projecting things.

Into the environment.

And at first.

It's not going to seem like.

There's anything there.

But eventually.

People of the dark side.

Will realize.

That there's definitely.

Something there.

And you'll see.

Their reaction to it.

They do their best.

To.

Deflate your confidence.

And so.

They're willing.

To eat the pain.

To make you think.

That it's not working.

But experience.

Is key.

The more experience.

You get.

The better.

Your weapons.

Will get.

And target selection.

Is kind of difficult.

For beginners.

Who are you going to stab.

With your projection.

And so.

Target selection.

Will become an issue.

In a future podcast.

But.

For the time being.

There's nothing wrong.

With.

Projecting.

A field.

Or a gateway.

At a door.

Or at an entry point.

And you can make it conditional.

I.

We should almost add.

That you know.

Computer programming.

Is really going to help.

In this.

In terms of logic.

When we look at.

Human biology.

It's all about.

Programming.

DNA is.

Essentially.

Controlled.

By a programming language.

A triplet code.

It's.

Very sophisticated.

And.

The closest.

That we kind of.

Come to it.

In.

Terms of the human experience.

Is computer programming.

And computer programming.

Is all about.

Conditional statements.

If this is true.

Then this happens.

And so.

Perhaps.

A good place to begin.

Is by saying.

If evil.

Passes through this point.

Let it be destroyed.

And imagine.

That you are projecting.

A type of.

Energy filter.

On a doorway.

But the imagination.

Is really the limit.

To what you can do.

And so.

The better your imagination.

In terms of what you can.

Think of.

The more interesting.

Your projections can become.

Doors.

But start.

Start.

With doors.

And gateways.

Roads.

Use anchor points.

Road signs.

Door frames.

Anything.

That can help you.

Solidify.

Your projection.

And.

Practice.

practicing with projections in your immediate environment

is the first baby step

towards something bigger

but eventually you're going to be projecting a sword

and attacking the enemy with it

we'll have to leave it there for this podcast

appreciate everybody tuning in
