

DEMONIC INCUBATION (EPISODE 29)

Welcome back to Jedi Training. The title of this podcast is Demonic Incubation.

The point of demons being here on planet Earth is to incubate and grow inside of people like a parasite.

Again, Ephesians chapter 6 tells us that we're not fighting against just flesh and blood, but against spiritual wickedness from heavenly places.

The translation, of course, is ghosts from outer space.

They come to Earth, they find humans that are like a city without walls, they penetrate, they infest, they feed, they grow, and eventually they take over.

To a large extent.

And they empower the victim with supernatural abilities.

These are the foot soldiers that we're dealing with.

And when people wake up and they reject the programming, or they grow up in a household of faith and they rebuke evil, then all of the people that are demonically possessed, or that possess demons, now work like a hive to try and attack, convert, infect, or kill those that resist.

This is why millions of people are experiencing, quote-unquote, gang-stalking, swarm attacks, hive attacks, from people that are possessed by demons.

Again, the Gospels tell us that they are legion.

They are many.

And they work like a hive.

All of them.

Not just the demons that are in an individual, but all the demons worldwide and intergalactically, collectively,

work through telepathy and telekinetics.

Again, we live in a metaphysical world

where everything is both physical and spiritual and energetic.

Everything is energy.

It can be physical energy.

It can be spiritual energy.

But there is both physical and spiritual in everything.

Every rock, every tree, every person, every animal.

It's much more than just the physical world.

The physical world is the skin.

And underneath the skin, or behind the skin, behind the veil,

are the inner workings, the spiritual component

to the universe, to creation, as we know it.

The created world was created by the spirit world.

There's a whole other world, a whole other universe, if you will,

that's going on behind the scenes.

And as metaphysical creatures, especially as Christians,

we are like operatives in this matrix.

We can both interact in the physical world

and in the spiritual world.

Now, demons come from the spiritual world

trying to interact in the physical world through a proxy.

And again, they do this through numerous mechanisms,

but mostly it's basically brainwashing from within.

These demons can project thoughts, ideas,

and even voices into people's heads.

And these demons are connected to a network.

And so these people become part of the hive,
not really understanding what's going on.

Now, what's important to understand as Jedi trainees
is that you will be attacked by this demonic network,
the Kingdom of Darkness,
from all different angles.

from foot soldiers on the ground,
from things that are a little higher up on the totem pole,
and some things will be attacking you from behind the veil.

And so as Jedi, we are to address the issue globally,
to be able to fight physically, spiritually,
in this world, and in the other worlds.

And so this is the complexity,
the dynamics of the chessboard of what we're up against.

And this is where telekinetics really comes into play.

It supplements, it complements
what you're doing in the physical world.

And of course, you know,
we're supposed to be doing a lot of things.

And mostly we're supposed to be focusing on good things,
like charity, evangelism, healing people,
being role models, etc.,
raising children.

So that's what we're supposed to be doing.

But we're also supposed to be doing a lot of other things,

like going to work, like surviving,
like fighting evil.

And so the Gospels give us a taste of this type of warfare.

And embedded in the Gospels are all types of clues
that when compiled together,
paint a really good picture
as far as what we're supposed to do.

And of course, casting out demons gives us a taste of that.

Gives us a taste of that spiritual warfare.

But of course, that's just kind of like
the beginning of the story.

Jesus tells us that he came not to bring peace,
but a sword.

We're supposed to be fighters.

Then we have parables like,
the unclean spirit seeketh rest in dry places.

Findeth none, and comes back to his home
with seven other spirits.

Each worse than the first.

And so, there are many things to put together.

It's kind of like the subplot in the Gospels.

And if you take all of these abstract sayings
that are spread out in the Gospels
and you put them all together,
focusing on spiritual warfare,
it gives you

quite a bit of ammunition
and quite a bit of things to think about.

Now, the question is,
how do you apply that
in the battlefield?

And so, as priestly warriors,
we should be trying to undermine evil
every which way we can.

they want to sow doubt,
we've got to evangelize faith.

They want to make people sick,
we've got to make them better.

They want to make people poor,
we've got to help them out.

They want to infect with demons,
we've got to cast them out
and attack these demons.

And so, we're going to focus a lot
on the telekinetics aspect of this.

But it all really begins
in local area warfare.

You have to first understand
what's going on in your community,
in your town, in your city,
in your state,
in your country.

And focus on that
first and foremost
through telekinetics
and through other things,
especially prayer.
But when you're hungry,
you don't pray for a pizza.
When you need gas,
you don't pray for gas.
So you're a metaphysical operative
in the matrix.
You're supposed to take care of
all of the little things.
And you're supposed to be focusing
on the enemy
because it's a full-on war
against Christians,
against people of faith.
And so,
we have to act accordingly.
We have to protect ourselves.
We have to protect
what matters most.
With that said,
telekinetics gives you
an opportunity to apply

your talents

in a way that makes

a huge difference

in this war.

We're supposed to do it.

It's part of being human.

It's part of the human experience.

We're hardwired with this

technology,

if you will.

And so,

we've talked about this

briefly

in other podcasts.

But,

the aim here

is to not only

affect

the physical,

but the spiritual

aspect

of the enemy.

The people that are infected,

that are demonically possessed,

the ones that are

gaslighting you,

discriminating against you,

sabotaging you,

you can pray for them.

You can pray for their deliverance.

You can help them

get delivered.

But usually,

it takes

the victim

to

agree to that.

And usually,

they don't.

And so,

deliverance is really difficult.

And for the most part,

these people are

an enemy.

And this is an infection.

This is a virus.

These are exosomes,

like,

spiritual exosomes

infecting people.

And all these people

are a vector,

a carrier,
and they're evildoers,
trying to corrupt
and destroy the world.
And we talked about how,
essentially,
this is like
an intergalactic virus
that spreads from
dead worlds
to living worlds.
And it infects,
it,
it feeds,
and then,
it destroys the planet
and leaves the civilization
as a ghost,
a demonic ghost
to infect other planets.
I can imagine
what the flat earthers
are thinking right now.
But to think that
we're all alone
in the dome

is,
is a tough sell.
You look at
the complexity
of the world,
the universe
is probably infinite
and beyond.
We're probably
talking about
metaverses.
but
getting back
to
what's going on.
It's an
intergalactic
infection
of demonic
viruses
that has
come here
pretty much
since the beginning
and has been
slowly

infecting
and
destroying
humanity
and life
on this planet.

You know,
half of the species
have gone extinct
and, you know,
eventually people
are going to get
so crazy
they're going to
blow up the world
somehow.

So,
the situation
is urgent.

It's real urgent.

And that's why
telekinetics aims
to basically
take out
the infection.

We can try.

We've tried.

The time for trying,
you know,
to save these people
and to deliver
these people
is pretty much
come and gone.

Now it's time
to
go to the next
level.

You know,
when there's a
swarm of
ants
invading your
home,
you know,
you'd like to
get them out
of there
peacefully
in a nice way,
but you know
that

there's really
only one remedy
for the problem.

And that's why
it's important
that

we treat
this situation
as is
for the time
being.

That means
that we target
the physical
and the spiritual
and so
we've talked
about
certain aspects
of that.

Essentially,
scripture is full
of blessings
and cursings.

Jesus told the
fig tree to

wither away.

Jesus said that

we could do

that.

We could move

mountains if we

believe.

We can do it

and worse.

At this stage,

we curse the

evil.

We rebuke it.

we tell it to

go.

And then we

attack

telekinetically.

And

telekinetics

is something

that you have

to practice

like playing

the piano.

It takes

literally
thousands of
hours to
acquire
what it
takes
on all
different
levels.

And of
course,
it begins
by knowing
the Bible,
being a
good person.

You can't
move mountains
unless you
have faith.

You can't
move mountains
unless you
have virtue.

And so
you really

need to be
the best
Christian
that you
can according
to scripture.

And Jesus
said not
one bit
of the
law
will be
changed.

He didn't
come to
rewrite the
law.

Jesus was
preaching
in synagogue
celebrating
the Passover.

There's a
reason why
the Old
Testament

is in
the Bible.
People
need to
spend time
there and
understand
what it
means to
be a
good
Christian
according
to Jesus,
which is
to know
scripture
better than
the scribes.

So,
listen to
the Bible
every day,
but eventually
all of this
will just

kind of flow
through you
and everything
will come
naturally.

Everything
that's
hardwired
will work
together.

And when
you curse
these people
that are
obviously
gang stalkers,
demonically
possessed,
and we'll
talk about
target selection
in a future
podcast,
I mean,
you hit
these people.

And we
talked about
some of the
routines in
previous podcasts.

We'll talk
about that
again.

but then
we go
beyond.

We attack
the spiritual
evil,
the demons,
and they
harvest
humans.

They incubate
in humans.

And essentially
they turn
into
something
bigger.

And what

we've seen
in people
is pretty
phenomenal.

Sometimes
they're
hanging
outside of
the aura
of the
person.

Sometimes
they're
within.

Sometimes
they look
like a
red star.

Sometimes
they look
like a
black
comet.

Sometimes
they look
like a

face with
emotion.

They are
disembodied
spirits.

They don't
have a
body.

They have
a head.

And we
see these
things everywhere.

But they're
telekinetic.

They
speak
through
telepathy.

They
attack
through
telekinetics.

It's called
demonic
attacks.

And it
feels like
an energy
weapon
attack.

But these
things can
merge with
the machines.

There's
ghosts in
the machines.

We've seen
these things
emerge from
death towers.

But we're
talking about
faces and
things that
are not
from planet
earth.

they have
alien
features.

They're
civilizations
that have
expired
through this
viral
process.

Or that
have been
wiped out
like in
the flood
or through
judgment.

But
these things
aren't human.
things that
are
in
many
forms.

And
they can
be as
big as

a planet.

They can

be as

big as

a galaxy.

Hunting

them in

deep

space is

another

thing that

we'll

talk about

in a

future

podcast.

Hunting

them in

the other

dimensions

is something

that we'll

talk about

in a

future

podcast.

for the
time being
to hunt
them in
your area.

And
chances are
this will
escalate
quickly.

That's
why we
remind
people out
there to
invest in
shielding
materials.

All
sorts.

Some
work better
than
others.

We'll
talk about

more of
that in
a future
podcast.
But
acquire
shielding
materials,
Faraday
shielding
materials,
because the
attacks are
EMF in
nature.
They're
on the
spectrum.
And they
can originate
from behind
the veil,
like a
cruise missile
coming from
deep space,

coming from
another
dimension,
coming from
another
planet.

Telekinetics
involves
wormholes,
even time
travel.

people.

But these
things are
lingering just
about everywhere.

The pollution
is enormous
in the
universe, as
far as we
can tell.

And this
is why we
think this
has been

going on for
trillions of
years.

The massive
amounts of
demons that
are out
there from
different worlds
is astonishing,
to say the
least.

So that's
our main
focus in
Jedi training
and telekinetics,
is learning how
to hunt these
things on a
spiritual level,
and to do
damage,
counter-attack,
and to
drive them

out.

Chances are
people have
been doing
this for
quite some
time and
just recently
have forgotten
about how
to do it.

Just like
most things
these days.

People can't
even start a
fire or
even cook
these days.

So many
things have
been forgotten.

This is
something that
needs to be
relearned,

and it's
in the
Gospels,
it's in
the Bible,
it's
scriptural.

We feel
that this
is part of
what it
means to
be a
Christian,
and we'll
be talking
a lot more
about that
in a
coming
ministry,
which will
supplement
Jedi
training,
because the

main component
of spiritual
warfare is
your spiritual
life.

And if
your spiritual
life is
toxic,
or if it's
been poisoned
by mainstream
religion,
then you're
not doing
it well.

And so we
really need to
go back to
the basics
there as
well.

We'll leave
it there for
this podcast.

There's so much

more to come.

We appreciate
everybody tuning
in and signing
up for Jedi
training.

With your
Christian background,
you're the
best candidate
for telekinetics,
by far.

And so stay
tuned for
more.

We're going
to post
this for
the general
audience as
well.

But you're
going to want
to stay
tuned.

It's going

to get

exciting.

Until the

next time,

if you're

listening to

this,

you are

the resistance.
