

EXORCISM VS DEMON HUNTING (EPISODE 35)

Welcome back to Jedi Training. The title of this podcast is Exorcism vs. Demon Hunting.

Most people have seen movies like The Exorcist, which portrays deliverance or casting out devils, which requires a lot of time and energy.

And usually the person that's getting delivered has to be a willing participant, otherwise you're basically kidnapping them and tying them down to the bed.

Not only do they have to be a willing participant, but they have to want to repent.

They essentially have to be Christians that have kind of gone astray and have been infected by some kind of demon.

But essentially deliverance is like hanging up on the botnet.

It's important to talk about casting out devils because it brings the problem out into the open.

It's a first step towards a solution.

But just casting them out essentially is like hanging up on the botnet.

The botnet is going to call back.

And Jesus tells us in scripture that once the unclean spirit goes out of a person, it goes to dry places, seeketh rest, findeth none, and then goes back.

And brings even more unclean spirits with it.

The botnet, the legion.

And so the idea of Jedi Training is to take out the botnet.

And of course, it's basically uncharted territory.

There isn't a textbook.

There isn't really a whole lot of information on how to go about this.

What I've discovered over the past few years is basically by trial and error and through a quasi-scientific method.

Test, hypothesize, and review the results.

But from my perspective, getting people delivered is worthwhile.

But you could spend all day and you really have to find the willing participant.

And for most people, I mean, it's just not happening.

You try to address the issue with people that are demonically possessed.

And for the most part, they're completely gone.

They don't want to hear scripture and they certainly don't want to get delivered.

And you certainly don't want to kidnap these people.

And so you basically have to do something with your time and your energy.

And so this is why we start talking about the Twilight Zone and going to the other side, going to the enemy HQ and basically taking out the enemy there.

But doing so requires a skill set that is just not available at Walmart.

And you certainly can't pick up weapons, spiritual weapons, at your local armory.

These are skills that have to be developed and they have to be based on understanding.

And it has to be in the hands of the right kind of person.

And so it's a comprehensive training course, to say the least.

And that's what you've signed up for with Jedi training.

But it's absolutely serious.

What we're getting involved with here is life changing.

But the idea is to take out the enemy.

Because this is a war.

And so we're going to continue on talking about all the different ideas that are relevant to this.

And we're basically going to go where no Christian has pretty much gone before.

And I'm not going to say that it's orthodox.

I'm not going to say that I'm happy with it.

I don't think anybody's happy going to war.

I'm just going to talk about what works.

And that's it.

I'm going to talk to you about what works.

But just like everything else, you basically have to leave doubt and disbelief behind.

And essentially, where this conversation goes is way beyond normal.

I think about the things that I end up doing.

Hunting demons and chasing these things down.

And it's absolute lunacy.

It really is.

And it borders on a whole bunch of other things.

In my opinion.

And so it's really hard to recommend all of this.

But, like I said, I know it works.

I know it's effective just by the response.

Not only from the Matrix, but from these demons that you see.

And so, before we get there, though, we really have to cover the basics.

And some of the basics that we want to talk about in this podcast,

beyond the ideas of taking out the botnet,

is things like witchcraft, sorcery, enchantment, and the mirror world.

Seems like there's many worlds.

And in fact, there are many worlds.

But, before we get into witchcraft,

let's think about Moses dealing with Pharaoh.

And he was basically dealing with the wizards and the sorcerers of that time.

And, basically, Moses was turning his staff into a snake.

And the wizards were doing the same thing.

And they were replicating some of his plagues and miracles.

And, basically, what we're seeing is this spiritual conflict in a physical world.

We're seeing a supernatural conflict in the physical world.

And some of the supernatural is coming from the dark side.

And some of the supernatural is coming from the Almighty.

And so, that's basically the two sources of the supernatural.

And the difference is really the intent.

And your foundation.

When it comes to witchcraft and sorcery,

it's all based on

the person's ideology.

The more wicked they are, the more powerful they're witchcraft.

Witchcraft isn't just about reading spells from a spell book.

But, essentially, it's something like that.

And while most of what's considered witchcraft is pretty obvious to most people,

it basically depends on the victim accepting the suggestion from the witch, if you will.

The witch will try and cast a spell on you or curse you or something like that.

And if you accept that destiny for yourself,

then you basically empower that

witchcraft.

And so,

you basically have to shake it all off.

And never accept what they're saying.

Enchantment is basically,

enchantment and sorcery is basically the same thing as witchcraft,

except it has to do with physical

objects.

And so,

things can become enchanted

or bewitched,

like pendants and rings
and all sorts of things.
And the wearer becomes
affected
by that witchcraft.
In fact,
we hear about
all sorts of things
being enchanted
or subject to witchcraft
that people would just never
think about.

But,
a lot of consumer products
end up having some kind of
witchcraft
you know,
witch's curse
embedded into it.

A lot of the
drugs on the
black market
basically pass through
occult cartels.

Not all of them,
but

from what we hear,
much of it is basically
cursed.

with some type of black magic
and essentially
allows demons to enter.

But this is a
problem with
a lot of the things
that we see out there
these days.

That's why it's important to
say grace
and give thanks
and
pray over your food
and basically
whatever you're going to consume.

But that's
certainly not the primary motive
for doing so.

Enchantment
can also include music
and
anything that gets people
basically

in a trance
or going with
the dark agenda.
And this is a
you know
this is a pretty
comprehensive
topic
to unpack
and I don't think
we're going to spend
a lot of time here
but basically
the idea of music
and nightclubs
and MTV
and all of that
is basically
to keep you in a
low vibrational state
and a secular state
so that you're always
thinking about
things below the waist.
And
you're always

you know
just
bouncing around
from place to place
in the matrix
never asking
the right questions.
it's just bread and circus
in a different way
but
basically the idea
is to keep you
in
the darkness.

So
you know
movies, music
all of that
basically
feed your mind
body and soul
full of dark energy
and they inspire
wicked thoughts
and
essentially

lead you astray.
and that's why
basically
if you're not
listening to
scripture
or spending time
in scripture
you're basically
tuning in
to the dark side
especially
this day and age
for the most part.
so
that should be
a pretty obvious one
again we could
spend a lot of time
there
but
the real focus
of this
podcast
is probably
going to be

about the mirror world

because

it's an easy

first step

towards

seeing what's

on the other side

of the veil

and everybody's

heard

you know

the urban legends

of mirrors

and mirrors can be

a pretty spooky thing

not sure if anybody

out there has had

a supernatural

encounter

while looking

in the mirror

or

excuse me

or have seen

or have seen

something

like
a latent
reflection
in the mirror
but mirrors can be
a very spooky thing
and they basically
represent
the inverted world
and the inverted world
would be something
that is basically
completely opposite
and so
the connotation
there is
of the dark side
now we're not
going to be
talking about
doing anything
creepy in front
of the mirror
because
that's even
too creepy

for me
I would never
turn off the lights
and just stand
in front of a mirror
and wait to see
what happens
because
I'm not that
curious
but
something a little
safer yet
as interesting
is basically
making yourself
a hall of mirrors
out of
aluminum foil
and I know
what that probably
sounds like
you know
tin foil
haddish
but

there's a reason
why they make fun
of that
now the point
of
making a hall of mirrors
out of aluminum foil
is basically
to capture
impressions
of
demonic faces
to give you
an idea
of
what's out there
now to do this
properly
you basically
want
to foil
an entire room
and so you
probably want to
choose like a
small room

and
you basically
foil it from
floor to ceiling
and it's not
that hard
I mean you just
basically get a
roll of foil
put it on the
ground
and then just
roll it up to
the ceiling
and tape it
and then just
go around the
room
that's basically
where most people
start
when they try to
shield from
you know
5G or something
and

you know
an average
sized room
may take you
all day
but
it's worthwhile
and you can
try and
connect the
foil
with some
type of
copper wiring
or copper
tape
and
ground it
into the
ground
not just
grounding it
into
your electrical
grid
but actually

getting some
copper wire
and running
it outside
and getting
a metal stake
and just
plugging it
into the
ground
that way
your hall of
mirrors is
connected to
the outside
world
and
basically
you let it
sit there
for a couple
days
and
it acts
kind of like
a fly trap

and basically
you're going
to get
impressions
of
demonic
faces
after a
couple days
sometimes
after a
couple hours
depending on
your location
and so
this is
basically a
homework
assignment
I know
you have
probably
plenty to
do
out there
but this

is
basically a
must
experience
it's kind
of like
going into
the fun
house
at the
county
fair
or something
but
it's much
more sinister
than that
in any
case
after a
couple days
basically
you're going
to have
a room
full of

demonic
faces
now what
you do
is you
basically
you go in
there at
night
you turn
on the
light
but
night
time
works
best
and
you start
looking at
the
full
and you
start
looking
for

faces
and
you know
what they
say
you basically
find what
you're looking
for
but
you start
looking for
eyes
then you'll
see the
mouth
you'll see
the facial
expression
and basically
you're going
to see
faces
from
other
worlds

they're not
going to
look human
some are
going to
look
demonic
some are
going to
look
robotic
some are
going to
look
like
aliens
basically
and I
can't tell
you exactly
why the
physics
works
aluminum
seems to
capture

demonic
faces quite
well
we'll
have to
talk
about
aluminum
in a
future
podcast
but
basically
all
metals
have
some
type
of
metaphysical
properties
some more
than others
if we
think about
the original

temple
in scripture
it was all
basically gold
and silver
and
there's
something
about
metals
that are
gold
in color
and silver
in color
that
attract
metaphysical
interactions
and so
you're not
really going
to have
a mirror
reflection
of yourself

in this
hall of
mirrors
but you
are going
to see
faces
from another
dimension
and
basically
when it
comes to
everything
you're going
to encounter
out there
it's
basically
what it
looks like
that's
the best
way to
describe it
it's

basically
what it
looks like
and so
at first
you're going
to be
thinking to
yourself
that it
can't
possibly
be what
it looks
like
there
this must
be some
kind of
you know
thing
other than
what I'm
thinking
but
generally

speaking

it's

exactly

what it

looks

like

and

I

stumbled

upon

this

basically

when I

was

trying

to

survive

the

apocalypse

of

2020

when

all of a

sudden

the

attacks

started
ramping up
at my
location
at 613
and so
I was
foiling
I was
grounding
I was
doing
everything
I could
to
survive
and
as I
was
putting
up
this
foil
everywhere
I
started

noticing

faces

in the

foil

and

it

ended

up

being

kind

of

like

a

holodeck

and

the

cheaper

the

foil

the

better

this

isn't

like

shielding

foil

you know

usually

when we

say

you know

make

shielding

and

armor

and

practice

with

aluminum

foil

you know

we're

like

get

the

thick

kind

but

here

the

thinner

the

better
basically
you're
trying
to
capture
an
impression
of
what's
out
there
and
you know
we could
theorize
on the
on the
physics
here
on why
this
works
but
it
definitely

works

110%

give it

a couple

days

so things

can

land

in it

kind of

like a

fly trap

and you're

going to

start seeing

faces

horns

you know

all sorts

of things

that you

would never

expect

and not

just like

once or

twice
it's going
to be
littered
and that's
just how
much demonic
activity there
is in the
environment
it's basically
everywhere
and
you know
again I could
share some
of my
theories as
far as
why we're
seeing that
but
this is
something that
we'll probably
use

again in the
future
having
a hall of
mirrors
like this
once you
get
more advanced
training will
be
a type of
launch pad
to
other worlds
but
it's not the
only launch pad
but
seeing is
believing
and
when you
see the
diversity
and the

quantity
of what's
out there
then it
really gets
you thinking
about
the
battlefield
it puts
things into
perspective
and seeing
these faces
from other
worlds
gives you
a type of
affirmation
that
indeed
we're not
just dealing
with ghosts
from planet
earth

but
we're dealing
with
ghosts
from other
worlds
just like
Ephesians 6
12
we're not
just fighting
against flesh
and blood
but against
spiritual
wickedness
from heavenly
places
from other
worlds
and that's
what you're
going to
encounter
and the
idea

here
is
to find
the source
you know
in biology
we basically
say that
a virus
or a
bacteria
has a
reservoir
a natural
reservoir
it basically
comes from
somewhere
just like
water comes
from somewhere
usually comes
from a
reservoir
it's kind
of like

the food
at the
grocery
store
it comes
from a
warehouse
it comes
from somewhere
these things
are coming
from somewhere
this is the
botnet
this is the
legion
so when you
see that
for yourself
then you
realize that
we have to
look for the
source
and the
core

and that's
what the
hunt is
all about
finding where
these things
are really
from
and basically
you know
going up
the pyramid
if you
will
to find
the original
evil
or
the evil
that's
there
in the
future
and we'll
talk about
time

and space

in a

future

podcast

but

from my

perspective

time is

more or

less

irrelevant

for

anomalies

like this

I suppose

another way

to think

about

demons

is some

type of

quantum

anomaly

but

it's

certainly

much more
complicated
than that
in any
case
we'll pretty
much have
to leave
it there
for this
podcast
there's so
much more
to say
and
right now
our schedule
is pretty
busy
we're
trying to
keep up
with
incoming
attacks
and upgrades

and we're
launching some
pretty serious
campaigns
in
enemy
territory
and
you know
the sooner
we can get
you know
people
operational
the better
I need a
vacation
but
keeping the
pressure on
these things
in their
home territory
seems to be
the best
defense

the best
planetary
defense
from this
demonic
invasion
from a
strategical
point of
view
so
we'll keep
you posted
on
what we
discover
but the
front line
action is
intense
and
there's a
lot of
things to
talk about
I know

that sounds
kind of
cliche
but
there really
is a lot
of things
to talk
about
there's a
lot of
recurring
themes
that we
see
we talked
a little
bit about
the core
in the
last
podcast
but
there's
definitely
a recurring

theme
in the
things
that
we
encounter
out there
and
the
I
is
you know
one of
those
things
but it's
also like
it also
makes you think
about
AI
for some
reason
and AI
was
a battlefield

in scripture
and so
that's
something
that we'll
have to
talk about
how does
the machine
world
play into
this
combat
that we
find ourselves
in
and so
everyone's
heard of
you know
the mixture
of iron
and clay
and the
like
and

you know
we've
definitely
seen the
ghosts
and the
machines
and
everybody
can
tell
that the
beast
system
is going
to be
cybernetic
in nature
to a certain
extent
and so
there is an
aspect of
AI that
is mixed
in with

all of
this
so
like I
said
there's a
lot to
talk about
and we'll
just try
and get
to it
as quickly
as we
can
appreciate
everybody
tuning in
until the
next time
if you're
listening to
this
you are
the
resistance

if you're
watching
ad
this
thing
is
