

FIGHTING THE DARK SIDE (EPISODE 37)

Welcome back to Jedi Training. The title of this podcast is Fighting the Dark Side.

The term dark side may sound cliché as the term Jedi, but it portrays the situation pretty well.

And the more you travel on this road of spiritual warfare, the more you'll realize that it truly is an intergalactic war of some kind.

Ephesians 6.12, we wrestle not against flesh and blood, but against spiritual wickedness from heavenly places, ghosts from outer space, from other worlds.

That's what it's all about.

And, you know, there are many references to absolutely strange and unusual phenomenon, to say the least, in scripture.

Including Ezekiel's wheels, UFOs, and many other things.

But it should be pretty obvious that we're not just dealing with humans on planet Earth.

And the more you know, the deeper the rabbit hole goes, and it just never ends, really.

It's kind of like taking that red pill and discovering that the world is not at all what you think it is.

But there's something, you know, totally sinister happening in the background.

And so, it truly is like a Star Wars kind of thing.

Now, all of us are fighting the dark side in our own way.

But the true impact is in the spiritual battlefield.

And this is the direction that we're going.

This is what Jedi training is all about.

Learning how to use your lightsaber, your sword of the spirit, in the spiritual realm.

And that sounds like a lie, which it is.

But the impact that humans can have in spiritual warfare is pretty huge.

Everything we do has a ripple effect, a side effect, a secondary effect, a lingering effect.

And it's because we are image bearers of the creator.

And so, we're empowered spiritually as well as physically.

We can do things in the physical world, and we can do things in the spiritual world.

The problem is that most people are dimly aware of what's going on in the spiritual world.

There isn't a map. There isn't a bus. There isn't a train.

There isn't a guided tour.

And if you do get a tour of the spiritual world, chances are it's from a sinister type of character that's trying to lead you astray.

And so, discovering this is an important part of the adventure.

For most Christians, you know, spiritual life is all about prayer and church, and that's, you know, definitely where it starts.

But, there's a lot more going on.

And, you know, it is important to go to church, to be part of a congregation.

It's real difficult these days.

It's important to gather with other Christians and to pray for things.

And, obviously, it's important to say your prayers.

It's important to be a virtuous person.

You know, a person that's not corrupt.

Etc., etc.

All of these things are hugely important.

But, the spiritual realm is much, much bigger than that.

And, basically, we're talking about kingdoms and empires and rulerships and just a massive amount of diversity and dynamics and action in a world that we just can't see with our visible eyes.

And, you know, all of this may sound like, you know, fantasy language for skeptics out there.

And, all I can say is, you know, seeing is believing.

And, hopefully, we're going to get you there.

But, you know, essentially, it is like taking the red pill.

There's no going back and you'll wish you could go back.

But, this is a fight worth fighting.

This is a fight that has to be fought.

And, nobody likes being conscripted into war.

But, essentially, there's really no escaping it.

We're all victims of this demonic invasion.

Whether we realize it or not.

And, so, participating in spiritual warfare is...

A decent option.

I don't want to call it a good option.

Maybe it is.

Maybe it isn't.

I don't like it.

But, I know it's effective.

How do I know it's effective?

It's a really long...

Set of experiments.

But, it's definitely effective.

Is it...

Instantaneous gratification?

Gratification?

Not usually.

But...

It's definitely having effects.

We'll get more into war stories in a future podcast.

We've got plenty of war stories.

A lot of action.

Every day there's action.

And...

You could be in the action, too.

If you...

Choose to participate.

So, you may be thinking to yourself...

Meh.

But, you're not willing to try.

And, so...

Try it out for 30 days.

Try out spiritual warfare for 30 days.

Especially if you're a Christian.

And...

You'll see the glitches in the matrix for yourselves.

You'll see the demons for yourselves.

You'll see...

Things that you wish you'd never see.

Basically.

So...

Seeing is believing.

But...

To see, you really have to be a lifelong believer.

For the most part.

So, being a Jedi.

Being...

Getting on the spiritual battlefield requires...

You know, faith and virtue and...

Doing good for the sake of doing good.

So, there's no cheating around that.

There's no...

Buying into that.

Either you are or you're not.

But...

Most of us...

You know, old timers...

From the 90s and the 80s and the 70s...

And...

Still have this...

Notion of...

What normal was like.

And...

Most of us just can't take it anymore.

And that's where spiritual warfare really becomes...

An excellent outlet.

And at first you'll be like...

Oh, this is kind of stupid.

You know...

This isn't working.

But you'd be surprised.

As a lifelong Christian, it definitely works.

And so...

If you enter the battlefield...

And you start...

You know, making a list of fig trees...

And you start going through it...

Like we were talking about in the last podcast.

And...

You make it...

You know, part of your routine.

You'll start seeing changes in the matrix real soon.

And...

It could be severe.

Very severe.

So...

Don't forget to prepare out there...

Spiritually, physically, mentally...

Financially...

The best you can...

To be able to work...

Remotely...

Somehow...

Because...

Basically the whole system is owned by...

The dark side.

Corporations...

Basically all the jobs...

You know...

The whole world will be against you...

In a very severe way...

At least the corporate world.

And...

So you have to prepare for all of that.

You have to prepare for...

Electronic assaults...

And the like.

Get your shielding...

Make your armor.

We're currently experimenting with new materials...

And...

We're going to have a lot of new feedback...

To provide...

On...

New strategies...

New shielding strategies...

But spiritual warfare...

Basically begins by...

By...

Rebuking evil...

Evangelism...

And...

Casting out...

Demons...

And...

And the like.

You know...

We always want to...

Debate the ethics...

Should we be saving these people...

Or...

Are they past the point of no return?

And I think there's...

It's a real interesting debate...

Obviously...

If we were...

You know...

In a community of faith...

Like we were in...

The 80's and the 70's...

For the most part...

You could say to yourself...

You know...

You know...

We can save this guy...

We can save this girl...

We can spend time with them...

And...

You know...

We could just kind of go back to normal...

But...

In this day and age...

It's basically like a zombie apocalypse...

It's basically...

You know...

Like starting over again...

But it's probably a lot worse than...

What it was...

You know...

In the first century...

Or what...

You know...

Or what have you...

You know...

People aren't just...

Heathens...

They're basically anti-Christian...

They know all about it...

They've chosen the dark side...

They've chosen to persecute you...

I think it's...

You know...

It's worth...

Trying to save people...

And evangelizing...

There's...

You know...

There's a need for the original works...

Out there...

That's why we did a podcast...

On evangelism...

That's why we're going to do a ministry...

And...

Hopefully it'll set...

You know...

A decent example for...

Folks out there...

And give them a lot of...

You know...

Good talking points...

But...

Based on...

What we're seeing...

Out there...

And what we have seen...

You know...

Over the past couple of years...

I mean...

This is nothing like...

It's ever been in...

Recorded history...

People were not dealing with...

You know...

All the things that we're dealing with now...

You know...

A hundred years ago...

Or two hundred years ago...

They were dealing with some of the things...

But...

Not at this level...

More than likely...

And so...

My opinion...

Remains...

Continues to be that...

You know...

There's a need for spiritual warfare...

There's a need to basically...

Slash and burn...

And thin out the numbers of...

Of the dark side...

Whether it be...

You know...

Human incubators...

Or...

You know...

Their spiritual...

Social...

Counterparts...

Remember...

Some of these people...

Are referred to as...

The children of the devil...

They're not all just...

You know...

Sheep that have gone astray...

Some of these people are...

Basically born...

From...

The dark side...

And that's like...

Another interesting kind of concept...

Where do souls come from...

Do...

You know...

Some souls represent something...

Specifically...

Predestiny...

All of that...

I think there's...

You know...

Definitely a need to...

To have that discussion...

And examine the possibilities...

But...

In any case...

I feel like there's...

You know...

A need for spiritual warfare...

To kind of balance things out...

To bring stability...

To bring stability...

And...

Not just have us...

You know...

Basically get...

Raped and exterminated...

As...

A faith...

And as a culture...

And as a people...

And as a species...

So...

It's a real tough decision...

To take it to this level...

It really is...

And we should have this discussion...

Every day...

And I think...

Until things...

Become more normal...

I think there's a need for...

Spiritual warfare...

We can't...

Turn our backs...

And look the other way...

And pretend like...

This type of evil...

Isn't happening out there...

So we have to be prepared...

To fight it on every level...

Evangelism...

And more so...

And that means being...

You know...

Basically cruel...

It's kind of like...

You know...

When a bug shows up...

In your sphere of awareness...

I mean...

You get pretty cruel...

Maybe at first...

You're like...

You know...

It's no big deal...

I'm not going to kill it...

And then...

You know...

Then you got two or three of them...

That come along...

And it's...

You know...

They're just having a party...

On your computer screen...

Or...

You know...

In your kitchen or something...

And...

You know...

You just can't take it anymore...

You basically freak out...

Start killing bugs...

That's basically...

You know...

What we're looking at...

But...

Obviously...

These aren't bugs...

They're children of the devil...

And you know...

Spawns of the dark side...

So...

So...

Given the situation...

It's...

You know...

It feels like...

The only safe way to proceed...

And like I said...

I've seen...

A lot of positive feedback...

When it comes to spiritual warfare...

Otherwise...

I wouldn't even...

You know...

Bother...

If it didn't seem like...

There was...

You know...

Something there...

I wouldn't bother...

And I wouldn't bother...

Talking about it...

But there is something there...

And...

The more I think about it all...

And...

You know...

What it says in scripture...

It just...

Makes even more sense...

It's almost...

You know...

It's tough...

Saying it like that...

Because...

You know...

Most of the gospels is about...

Love and faith...

And helping the poor...

And you know...

Healing people...

And all of that...

But...

There's definitely this...

Subplot of...

Spiritual warfare...

Of driving out demons...

Of...

Fighting the dark side...

And...

When tribulation hits you...

You'll realize...

Just how important...

Ephesians 6.13 is...

Head to toe protection...

Sword of the spirit...

Fighting back and...

You know...

I basically...

Went through this...

The old fashioned way...

The natural way...

And I'm basically...

You know...

Trying to get people a heads up...

And...

Get people interested...

In rediscovering their...

Hidden potential...

But...

Right now...

The focus for all of you...

Has to be...

Local area warfare...

Basically...

What's in your area...

And...

You know...

What's on TV...

Some of you are from different...

Countries and the like...

So you're going to have different people...

On your TV...

You know...

Hit them...

Hit all these people that have been...

Basically...

You know...

Trying to exterminate you...

And humanity...

Hit them...

Hit...

You know...

All the people that work with them...

Make a nice list...

Find their pictures...

And...

You know...

Keep practicing...

And...

Prepare for...

You know...

Blowback...

That's exactly what it is...

Blowback...

And...

You know...

We want to give you time...

To prepare...

And to practice...

And to continue your training...

And to modify your routine...

And to coach you on...

You know...

How to improve...

You know...

The little things...

Before we get into the bigger things...

Because...

Essentially...

Interdimensional...

Intergalactic...

Spiritual warfare...

Requires...

Experience...

And...

Local area warfare...

And...

Again...

The end game here...

Is to get you on...

To the...

Spiritual battlefield...

So it's not the battlefield...

That we see...

You know...

In living color...

That's like the physical battlefield...

It's part of the spiritual war...

Because...

The physical world...

Comes from the spiritual world...

And so everything that...

Manifests...

Here...

Basically...

Goes through...

A manufacturing process...

That...

Has its origins...

In the spiritual world...

And so...

Most people are just...

Totally...

Left out of that loop...

They're just totally in the physical...

With like their...

You know...

With their beer...

With their beer goggles on...

But...

Essentially...

We have to go back...

To where we came from...

And we can do that...

While we're in the physical world...

But that's the real nature...

Of spiritual warfare...

And it's essentially...

Finding...

The dark...

Spiritual components...

That are...

Still manifesting...

Either in the spiritual...

Or...

In both the spiritual...

And the physical...

I think there's a lot of...

You know...

Interesting conversations...

As far as...

What's been encountered...

But...

It seems like...

You know...

One way you could describe it...

Is that the physical world...

Has a quantum entanglement...

With...

The spiritual world...

As well as...

Perhaps...

Other...

Universes...

Or other...

Spectrums...

Of existence...

And...

You know...

The entire phenomenon...

Of a spectrum...

Is really kind of like...

An interesting conversation...

Like a rainbow...

Has...

You know...

Many different colors...

And...

What we're seeing...

Is a spectrum of...

You could say...

Existence...

And so...

There's probably a lot of different ways...

Of looking at this...

But...

Essentially...

It seems like...

There's a lot of quantum entanglement...

And some things...

Exist in...

Many different...

Worlds...

Or universes...

At the same time...

And some of the things...

That we see are...

Purely physical...

And some of the things...

That we see are...

Entanglements...

With the spiritual world...

And so this gets to be...

A really big conversation...

I'm not sure if we have time for it...

Right now...

And I probably should prepare...

For that lecture...

But...

Essentially...

You know...

Eventually when we go...

Demon hunting...

And we'll start...

Training people up...

To go demon hunting...

And...

Spiritual warfare...

But...

Basically...

What we're looking for...

Is anomalies...

That...

You can test...

And retest for...

And...

Essentially...

You know...

Poke or prod...

This anomaly...

And...

Look for reactions...

So...

We'll have to...

Think about how we're going to...

Get you there...

But...

It doesn't have to be that complicated...

Initially...

You know...

The more advanced theories on...

What's going on out there are...

You know...

Still...

Taking form...

From my perspective...

But...

We can focus on more...

Basic and...

Easier to understand concepts...

That everyone can...

See and learn from...

Again...

The big question is...

You know...

Why does...

Evil even exist...

Why is it here...

What's going on...

What is the true nature of this...

War...

War...

War...

And so...

It's a...

It's a much more complicated debate...

Than you might think...

And so...

Is there anything new...

That I can give you...

In this podcast...

For those that are...

Getting ahead...

And really...

Practice makes perfect...

You know...

Developing your techniques...

I suppose...

You know...

One of the things...

That we should really be talking about...

Is...

Getting a feel for the push...

And the pull...

And telekinetics...

And...

The local area setting...

Because...

You know...

It's kind of like...

Flexing your muscles...

Or learning how to flex a new muscle...

You know...

For men out there...

You know...

There was a day...

When you didn't know how to flex your pecs...

You know...

You saw other people do it...

And you're like...

How do I do that?

And so...

You basically...

You know...

Had to...

Figure it out...

And...

You know...

You know...

Had to...

Figure it out...

And...

Nothing replaces...

You know...

Self-training...

In that regard...

And...

What you're going to discover...

In telekinetics...

You know...

We were talking about...

Spoken commands...

And...

Imagination...

In the last podcast...

Because...

Mind over matter begins with...

Imagination...

And...

You know...

You're going to try...

Many different...

Ways...

Hopefully...

To...

Have an impact on...

Targets...

At a distance...

That's the whole concept of...

Telekinetics...

It's kind of like...

You know...

The mysterious force of...

Magnets...

Can't see it...

But they have...

An impact on one another...

You can't see the...

The force...

The magnetic force...

But you can...

Feel it...

And...

Basically...

As you train...

And as you...

Go through your target list...

And as you experiment...

With new techniques...

Basically...

It comes...

To...

Push and pull...

You know...

You're going to be pushing on the target...

Pushing through the target...

You know...

Chopping through them...

Or something like that...

In a kinetic...

Kind of fashion...

So...

Kinetics...

You know...

Physical force...

Kinetic energy is...

Like...

The actual...

Energy of something in motion...

And...

You know...

Just...

Just...

Regular kinetics...

And...

All of that...

But...

telekinetics is basically on one side of it is like pushing something through a target

so it has like some kind of momentum it has a type of kinetic energy and so you'll have to imagine

you know like a blade chopping through a target and you'll want to you know try to

manifest that blade in a way that

that you can feel it and a lot of people have to use their hands as beginners

to feel like there's something behind their intent

and so you know we're probably going to have to break this down and you know go through it in a

real slow precise kind of way but basically you know you kind of you know

you basically start by projecting like an imaginary beam

and then you're basically trying to move that beam like a laser through the target

and so this is an example of a push because you're pushing out

into the environment whereas a pull is when you're trying to pull something from the environment

and so you know this is where like some of the techniques in tai chi you're breathing in and

you're kind of feeling the energy like coming into you from your surroundings

and then you can actually train your mind to

expand that phenomenon to a target and just basically draw in from that target

draw in some energy that you can use later for example or just to weaken you know the the target

and so pushing and pulling and practicing in a local setting or through a window of time like a picture or something

will get you you know some of the skills that you're going to need for

the spiritual battlefield

and out there is you know everything from reptilians snake people

devil's demons all sorts of races and species of

of things that got wiped out or just basically imploded

it's hard to say

maybe some of both it's
you know
it's unknown
from the human perspective at this stage
what happened to all of these things
how did they get here
but essentially we'll be
repurposing
the skills that you use
or that you acquire
locally
for interdimensional warfare
so i know that sounds like a lot
right now but
that's where the
the big impact is
you go out there
hunting for
you know the biggest targets you can find
and so that's
that seems to be you know
the strategy
the strategy that
i'm focusing on right now
for the most part
it's kind of like

you know going to the top of the pyramid
and so
that essentially i think is the
essence of
ephesians 6 12
it's not just to be focusing on the flesh and blood
aspect of what's going on
but to
go after these rulerships
of the dark side
and that's where the real fight is
that's where it gets ugly
and that's where
you know you're basically
you know full time
trying to survive
and trying to fight
trying to you know
basically
give yourself a window
to launch
counterattacks
or to
you know
launch a campaign
and so being able to have a launch pad

is an important topic as well
because
once you get engaged
the walls start closing in real quick
and if you're not ready for it
you know you're just
everything's just going to collapse
and
you know you're not going to be able to do anything
so what you need to do is
basically
build yourself
a safe environment
where you can launch
telekinetic attacks
and
again you know
if you do an hour a day
you're pretty much
you're pretty much done
so
you basically have to
you know
prepare
or maintain
your

security

while you continue to launch

telekinetic attacks

it's quite the struggle

it's a lot worse than you might think

much much worse

and

you know

hopefully

you know

a few of you will get there

I don't expect

all of you will get there

I'm sure some of you will try

and then once you feel the

the heat

you know

you're going to go back

to making cookies

and that's usually how it is

but

this is a war that

we all have to fight in

because

it's coming for us

one way or another

basically all Christians
will be victimized
by this
so
you know
keep these ideas handy
for when your tribulation comes
because it'll come
if you're doing it right
if you're doing the rest of it right
tribulation will come
and then
you know
you're going to have to see your way through it
but
for some of us
we realize that
the tribulation is linked to demonic attacks
and so
it's kind of like
you know
another
type of zombie apocalypse
if you will
and either
you know

you're just going to sit there
and get eaten up
or
you're going to
defend yourself
and since
this is a spiritual war
you know
you can't shoot these things
with a gun
you basically have to
take them out
with
spiritual weapons
so these are all kind of like
you know
new concepts
for many Christians
out there
and
you know
all I can say is that
it seems to have a real big impact
but
there isn't a whole lot of
you know

absolutes
in
science
or metaphysics
you know
mostly
things are theories
and
from my
perspective
these theories
are pretty solid
and
you know
looking back
on a lot of
what other pastors
have said
you know
throughout
recent history
going back
to the 70s
80s
90s
seems like

many people
were encountering
a lot of this
back then as well
and they just
didn't know
how to really
deal with it
but we'll talk
more about that
you know
what were
you know
pastors of the 80s
experiencing
but
basically
you know
lots of torment
tribulation
demonic attacks
having to pray
through
some type of
you know
enemy

force field
if you will
kind of goes back
to
Daniel
and the Daniel
fast
when it took
the angel
21 days
to break
through
so
this is
basically
the
enemy territory
that we're
launching attacks
against
it's this
vast territory
that took
an angel
21 days
to make it

through
and it is
you know
generally
understood
that
angels
think
and move
basically
at the
speed
of light
so if
it took
them
21 days
that's a
lot of
territory
we'll leave it
there for this
podcast
we'll get into
more intense
action

but for the
time being
prepare
train
all different
levels
start you know
taking it
seriously
if you want
this to be
your vocation
if you
you know
want to join
the war
or if you're
already in
the war
and you just
don't really
know how to
defend yourself
then you
know
follow our

lead
prepare
acquire
shielding
materials
we'll have
an update
pretty soon
on new
materials
and new
concepts
so stay
tuned for
that
and you
know behind
the scenes
we're working
on a
ministry
we're
you know
doing our
campaign
and

you know
every day
is
is a new
adventure
a lot of
interesting
concepts to
talk about
that
you know
that you
won't hear
from anywhere
else
the things
that we're
pulling from
the ether
you could say
is beyond
what you're
going to
experience
on
you know

other
podcasts
to say
the least
most people
on a real
basic level
when it
comes to
demons
and
spiritual
warfare
we have
a lot
of detail
so
stay tuned
for all
of that
appreciate
everybody
tuning in
until the
next time
if you're

listening to

this you

are the

resistance
