

JEDI TRAINING - THE SWORD OF THE SPIRIT (EPISODE 38)

Welcome back to Jedi Training. The title of this podcast is The Sword of the Spirit.

As mentioned in Ephesians chapter 6, after your head-to-toe armor and shielding and your shield,

you absolutely need to procure your weapon, the sword of the spirit.

Anybody that wields the sword of the spirit that is not of the spirit will die.

And so, you better know that this is your vocation.

If you've made it this far, and we've talked about a lot of things,

but basically you need to be a lifelong Christian,

and have chosen the vocation of spiritual warfare, and made a covenant,

if you've made it that far, and you're really ready to go to the next level,

then using the techniques from local area warfare will be amplified through the sword of the spirit.

Essentially, what we're doing is focusing and conducting telekinetics through the sword of the spirit to attack.

It's a powerful weapon.

But wielding it is even

more precarious than

everything else

that we've done so far.

In any case,

you can practice with

a scalpel,

or something like that,

and

extend your local area warfare

ideas

through

this instrument.

And you should feel like

it's a little bit easier.

You should feel like

it's a little stronger.

And so, the energy that runs through you

is conductive,

in a sense.

Now, we've shown the video of the physics experiment,

where

a scientist is

placing one hand on a Tesla coil,

and in the other hand has a metal object,

and

points it

somewhere.

And we can see the static from his hair basically

dissipate.

And essentially,

there's a discharge through

the metal conductor.

And that's essentially what

we're looking for

here.

Now, of course,

we can amplify this

with the sword of the spirit.

But again,

wielding the sword

is

a major responsibility.

everything you have

that

is a reference

to our faith

and to the Almighty

is

a holy artifact.

You must guard it

with your life.

And so,

we're here to protect

what matters most.

And so,

if you make a sword

of the spirit,

which is

the word of God,

then

you have to keep it
clean,
you have to keep it
proper,
you have to do
the best you can
to protect it.

And
in the thick of warfare,
sometimes,
it's like
bringing your rifle
into the trenches.

It's not always
possible,
but you should always
be thinking about that.

Your treasure
is where your heart
is.

And so,
you should be keeping
your Bible,
your covenant,
in a very secure
location.

Mindful of it.

Protecting it.

Same goes with

the sword of the spirit.

For the time being,

we're going to focus on

local area warfare

and

telekinetics

through

windows of time.

Television,

photographs,

and

you can improve

your skills

by

practicing with

a scalpel,

for starters.

Bring it with you

in the car.

Point it at

people

discreetly.

and

what ends up
being a small
movement
in the physical
should be a huge
movement
in
the spiritual.

And,
again,
it's mind over
matter.

And so,
you want to
synchronize
your
imagination
with
the physical
movement of
your hand
and
keeping in mind
the target
destination.

And so,

we're looking for
a choir effect
to harmonize
your mind,
body,
and soul
in
attack formation.

And once you
have practiced
long enough
with
a scalpel
or some other
instrument,
then you want to
make for yourself
basically
a weapon,
according to
Ephesians chapter 6,
manifest what is
in the Bible
into the real world.
If it says
the sword of the

spirit
is the word
of God,
then you're
thinking
a sword
with
the word
of God
together
in the
physical.
It's
hugely
powerful,
not only
symbolically,
but
spiritually
as well.
It is a
mega weapon.
But,
you don't want
to lose it,
you don't want

to
leave it
behind,
and you don't
always want to
necessarily carry
it with you,
lest it get
confiscated or
lost or
something like
that.

So,
you may have
to have
one for
home
and
instruments
that you
can use
for the
road.

But,
scalpel's
or a

precision

knife

works really

well

as a

discreet

type of

instrument

in telekinetics.

things.

I've seen

a lot of

strange

things.

When you

point

something like

that at

things that

you never

imagined

you'd do,

you want

to be

careful.

It takes

a lot of
discernment
to engage
in target
selection.

you think
of all
the morals
and ethics
and then
what are
you going
to hit?

For the
time being,
don't get
carried away.

Stay
on planet
earth.

Moving
too far
too fast
will
definitely
accelerate

your learning

curve.

and if

you're

seriously

considering

this

vocation

right now

then you

should be

definitely

working on

the shielding

and your

defensive

posture.

You're

going to

need it.

You

cannot

imagine

the level

of evil

that you're

up against.

With

that said,

when you

get ready

to

manufacture

your very

own

sword of

the

spirit,

have it

be

something

that you

can use

in telekinetics.

And so,

I've thought

about this.

I've thought

about making

a big

sword

physically,

hard
but it
would be
difficult
to wield
on the
spiritual
battlefield.

Not saying
that it
can't be
done.

I haven't
tried it.
It could
be very
impressive.

but for the
time being,
I would
recommend
something that
is light,
easy to
handle,
a nice,

sharp,
little
cooking knife,
a sushi
knife,
something that
has a
look to
it,
preferably
not a
folding knife,
something that,
you know,
fits like a
pocket knife.
it should be
better than
that.

But,
to each
their own.
I find a
nice,
ergonomic,
kitchen knife

works best.

Wooden

handle,

metal handle,

it's really

up to you.

What matters

is the

blade,

and you're

positioning

your finger

on the

blade,

to make

the

connection.

But,

you know,

a metal

handle would

probably work

pretty well

too.

Any case,

it should be

a nice,
pristine
instrument,
clean,
never used
for anything
else.

Don't pull
something out
of the
drawer that
you've used
in the
kitchen.

Go find
something
brand new.

and it
will only
ever be
used for
spiritual
warfare.

Never
dual
purpose,

no double
mindedness,
no
trampling
on what's
holy.

Otherwise,
it's the
curse.

In any
case,
find
yourself a
good quality
knife,
and then
comes the
difficult part,
getting the
word onto
that knife.

how you do
it is up
to you.

I would
recommend

handwriting

scripture

onto a

nice piece

of paper,

and then

carefully

putting a

little bit

of tape

on that

so that

it holds

real nice,

but that

the blade

isn't all

tape.

The more

metal,

the better.

So,

basically,

you want to

find a way

to make

it happen,
and if
you have a
way of
inscribing
with a
laser,
that would
probably be
best.

Permanent
would be
better,
but
there you
go.

Which
passage in
scripture
should you
choose?

It's hard
to say.

I think it's
very important.

If it is

the word
of God,
then it
better be
the words
of the
almighty
in scripture.

And so,
for example,
let there
be light.

That would
be an
excellent
example.

What makes
it
better
is that
it's in
your
main
language.

So,
if you

Speak

English,

then have

it be

in

English.

If

your main

language is

something else,

then have

it be in

your main

language.

Handwritten

is better.

weapon

on the

other side.

And

that's

probably as

far as we

can get

with that

right now.

We'll be
using it
later once we
cross into
the twilight
zone.

This is
your main
weapon
on the
other side.

and
often
enough,
you'll
fall asleep
with it.

And
if you
fall asleep
with it,
holding it,
and
you manage
not to
stab

yourself,

then

you're

going to

have the

wildest

dreams.

It is

a life

changing

experience

using the

sword of

the spirit

in spiritual

warfare.

Once you

go there,

you basically

never go

back.

But

again,

you have

to be

really

discreet
because
if you
look like
some kind
of freak
stabbing
in the
air,
and people
can see
that,
you'll
probably
get arrested
and they'll
probably
confiscate
your
artifact.

And that's
a problem.

And so
we'll talk
more about
how to

properly
use the
sword of
the spirit
in an
upcoming
podcast.

But for
the time
being,
you're going
to have to
think about
getting that
prepared.

We've given
you a lot
of homework,
a lot
of things
to do.

And you'll
only really
take this
seriously if
you're starting

to feel the
pressure already
of the
tribulation
and the
persecution,
which is
absolutely
coming if
you're a
real Christian.

If you're a
fake one or
not really
sure,
then life
might be
pretty good
for you.

in any
case,
our
recommendation
is to
listen to
scripture

every single
day.

Tune in
every single
day,
otherwise
you're just
floating
away.

tuning in
every day
means here
comes the
pressure.

And it's
just like
the parable
of the
sower.

Some will
fall in
stony
places,
some will
fall in
thorny

places,
and some
will fall
in green
pastures.

And so
it's
easy to
run away
as soon as
tribulation
hits.

That's the
whole point
of it.

and
sometimes
you just
way past
the point
of no
return.

And when
you're there,
that's where
spiritual warfare

becomes
an interesting
vocation.

I'm not
going to
say it's
the best
thing to
do.

Jesus
came and
died on
the cross
so that
the people
that witnessed
Jesus
wouldn't be
blameless.

They couldn't
claim
ignorance.

Just like
people today
can't claim
ignorance.

they've all
heard of
Jesus.

They've all
heard of
the Bible
and they've
all made
a choice
on that
topic.

And so
it's an
important part
of what
happens
in the
next life.

But
if you
try to
do the
right thing
then here
comes
tribulation.

and so

it's

tough.

It's

tough

as far

as

where do

you go

from here.

and

you know

we've had

this debate.

We'll keep

having this

debate.

Is

fighting

back

the right

thing to

do?

I don't

know.

But if

they're going

to murder

us all

anyways

I want

to take

out some

bad guys

personally.

and on

the spiritual

battlefield

in the

spiritual

world

there's

tons

of evil

out there.

It's

shocking.

That's

the only

thing I

can say.

Really.

The amount
of evil
that's out
there
is shocking.

It's
like
an
infestation
of
bugs
it just
doesn't
end.

I'm not
talking like
you know
a couple
mosquitoes.

I'm
talking like
wave
after wave
after wave.

So
that's

why

the more

guns on

the front

lines

the better.

You know

this should

be a

24-7

operation.

I can

only really

do an

hour

day.

I feel

like

the more

people

that are

hitting

targets

the better.

But

obviously

entering
the war
is
a
disturbing
experience.

So
there you
go.

We'll leave
it there
for this
one.

Appreciate
everybody
tuning in
until the
next time.

If you're
listening to
this,
you are
the
resistance.
