

CORNER STONE OF SPIRITUAL WARFARE (EPISODE 5)

Welcome back to Jedi Training, Telekinetics, Episode 5.

Today we're going to be talking about the cornerstone of spiritual warfare, which is faith.

Without it, we can't do what we do.

Now, we call it Jedi Training because we're fighting the dark side, quite literally.

But not just the dark side on television.

Not just the dark side that's physically around you.

Ephesians 6.12 tells us that we're fighting a spiritual war.

We're fighting spiritual wickedness from heavenly places, from high places, from places that are not of this world.

Against rulerships and principalities.

And so we're fighting something that we can't really see with our naked eyes.

We're not just fighting the evil that is physically around us.

We are fighting an evil that is nebulous in nature.

That is spiritual in nature.

That is unholy, unclean.

That is wicked.

That is evil.

Essentially, it's like fighting ghosts, in a sense.

People without bodies.

A consciousness that is out there in a dreamlike state.

But not physical in nature.

Think about when you're dreaming.

It's almost like you're disembodied, in a sense.

That's the type of consciousness that we're fighting against.

It's dreamlike.

It's in a dream, in a perpetual dream that's invading this world.

And it wants to destroy everything that's out here.

It is essentially like a cult of nothingness.

Of thoughtlessness.

Of hatred.

Of wickedness.

Of darkness.

And we're fighting legions of these types of entities.

Perhaps they were previous civilizations.

Perhaps they were alien civilizations.

But the variety of evil that we're fighting against is like a legion of doom.

It's worse than you can possibly imagine.

And not only can they body snatch people.

But they can attack you.

From the world in which they reside.

This is the nature of the evil.

It's not just demons and devils.

It's so much worse than that.

And the only thing that can overcome the darkness is light.

And without that light.

Without that spiritual light.

Without faith.

You're just not going to get anywhere.

You're going to be like a city without walls.

You're going to be taken over.

You're going to be led down the Primrose path.

If you will.

On that broad way.

That leads to destruction.

Have you noticed how there's a broad way.

In just about every town.

There's a main street.

And there's a broad way.

That leads to destruction.

How many of you have been cruising on Broadway?

Now before we get ahead of ourselves.

We realize that.

This is really.

The place that requires the most attention.

Talking about faith.

Because.

People have been disarmed.

And I want to repeat that.

People have been disarmed.

By mainstream Romanized.

Religion.

Mainstream.

Romanized.

Christianity.

They've been disarmed.

Because they've been fed.

A blue pill.

When they think they're taking.

The red pill.

And so we're going to address.

The big elephant in the room.

Because without.

Proper faith.

You can't be that shining light on a hill.

You can't fight the darkness that's out there.

You're in a fog of confusion.

That you don't even know.

That you don't know.

That you're on the wrong path.

New on the time.

and so for Christians, this is going to be a huge eye-opening conversation.

At first, you may reject it. At first, you may dislike it.

But the more you do your own research, the more you'll realize what we're saying here.

Now, we all know that there's something wrong with the mainstream churches,
whether it be Catholic or Protestant or many of the denominations out there.

We can feel that there's something wrong.

It's kind of right, but it's kind of wrong for some reason.

It could be the idolatry.

It could be the female priest.

It could be the LGBT Bible in your church.

It could be something else.

Now, you have to understand that way back in the day,

during the Council of Nicaea, which spawned the Nicæan Creed,

essentially, Christianity was hijacked and turned into a Roman religion.

Rome at the time was a very evil and pagan place.

Essentially, the arch nemesis of the Holy Land.

It destroyed the Holy Land.

It destroyed the Temple.

It crucified Jesus.

Of course, we're given the story of how it wasn't the fault of the Romans.

And that's partly true.

They weren't the only ones that participated in the crucifixion.

But the Roman Empire has always been

an enemy of the Kingdom of Heaven.

In fact, it's highly suspected that

what the Romans were worshipping at the time,

like the planets and the like,

were in fact the fallen angels.

It was an empire of the dark side.

And they hijacked Christianity.

And they turned it into sun worship.

This is a very important point.

Because if you pay attention to Matthew, Mark, and Luke,

the Synoptic Gospels,

Jesus never worshipped himself.

Jesus never asked people to worship him.

In fact, Jesus came preaching the Gospel of the Kingdom,

which was the Old Testament.

That's really important to understand.

Because Jesus never tried to separate

the Old Testament from his ministry.

In fact, it was quite the opposite.

He was quoting the Old Testament all the time.

When he was confronted by the devil,

he responded,

It is written.

He was quoting the Old Testament.

Deuteronomy, Leviticus.

He was quoting Isaiah.

In his ministry.

Before the crucifixion,

Jesus was celebrating.

Jesus was celebrating.

Jesus was celebrating the Passover.

Jesus was living his faith

as it's written in the Old Testament.

And Jesus never taught his disciples

to worship him.

Jesus told his disciples,

You have only one master.

And this is where our

spiritual energy

comes from.

This is what we have to tap into.

This is what we have to connect to.

Many Christians out there

are saying their prayers to Jesus

and to Mary

and to all of the saints.

And essentially,

they've become polytheistic.

They're worshiping everything they can.

And while everybody loves Mary,

everybody loves Jesus,
everybody loves the saints,
it's not what we're called to do.
Jesus did not worship Mary.
Jesus did not worship the saints.
Jesus did not worship anyone
but the Almighty.
Creator of heaven and earth.
This is the source
of our spiritual energy.
This is our life force.
In modern Christianity,
we basically worship a trinity.
Jesus told us that
the Holy Spirit would be our friend,
would be our guide.
He never told you to worship
the Holy Spirit.
He never told you to worship Jesus.
How did Jesus teach you
how to pray?
Our Jesus?
No.
And this is shocking.
This is absolutely shocking
to most Christians out there.
Up to the point
that they may even say
it's blasphemy.
And so this is how
far off course
most Christians are out there.
Like I said,

you can do your own research.

Please do your own research.

Read the Bible.

Listen to the Bible.

Listen to Matthew.

Listen to Mark.

Listen to Luke.

And pay attention.

Because Jesus never told you
to worship Jesus.

That's not how he taught you
how to pray.

Listen to Luke.

Listen to Luke.

Listen to Luke.

To think that people
are going into a church
and they're worshipping
a statue of Jesus and Mary.

They're committing idolatry.

They're committing polytheism.

They're breaking
the Ten Commandments.

This is their religion.

Like I said,
everybody loves Jesus.

Everybody loves Mary.

That's not the question.

The question is,
what are we supposed
to be doing
as Christians?

We try to separate ourselves

from the Jewish faith.

We try to separate ourselves
from the Old Testament.

But that's not what Jesus did.

A lot of people harbor

a lot of ill feelings

towards the Jews

and that's understandable.

The Bible

basically explains to us

how the Jews fell away.

How the Jews

betrayed their faith

and how they were

basically annihilated

over and over again

by Babylon,

by the Romans

and the like.

Even by the Germans.

Believe it or not.

What happened

to those people

is well documented

in the Bible.

and Jesus

told those people

at the time,

you're going to get

wiped out.

Nothing will be

left standing.

And that's exactly

what happened.

But the reason

that it happened

is because

these people

weren't doing

what they were

supposed to be doing.

They weren't

worshipping

the Almighty

like they were

supposed to be doing.

They started

worshipping

other things.

Even Solomon.

And that's what

led to their

destruction.

And that's what's

leading to our

destruction.

You look at

society today,

it's just

falling apart.

It's like

the zombie apocalypse.

in many places.

And it's only

going to get worse

as this corruption

spreads because
there's no light
to take out
the darkness.
And this is
where we come in
as spiritual warriors.
We're bringing
the light.
But that can
only happen
when
the cornerstone
of your foundation
is based
on proper faith.
there's no
cheating
your way
out of that.
In fact,
you're only
cheating yourself
if you're not
listening to Jesus,
if you're not
listening to
what's in the
Old Testament.
It goes
hand in hand.
There's a reason
why it's all

there in the
Bible.

And people
just want to
skip through it,
exclude it,
not pay
attention to it.
and that's
essentially
going to hold
you back.

And nothing
that you do
beyond that
will be
effective
against this
enemy
that we're
fighting against.

We've been
talking about
how to apply
our talents
and our gifts
in this war
against evil.

But this
can only
happen
if your
foundation

is set up
the right way.
That's why
it's important
that we talk
about this.

It's why
it's important
that
you know
the Bible
basically by
heart.

That you know
it better than
your favorite
song.

And you can
do that by
listening to it
on audio.

the King
James
dramatized
version
online
is excellent

easy to
listen to.

In fact
it's entertaining
to a certain
extent

and you can
absorb it
like your
favorite song.

But you
need to know
what you're
supposed to
be doing.

There's no
replacing
being a
good citizen
of the
kingdom of
heaven.

And that's
what we're
aspiring to
be.

It's to be
citizens of
the kingdom
and that
can only
happen if
we adhere
to the
rules and
regulations
to the
statutes
and to

the laws

of the

almighty.

Now that

doesn't mean

that you're

not going

to make

mistakes.

We're all

going to

make mistakes

but the

point is

to try

to avoid

as many

of these

mistakes

as possible

because it's

detrimental to

your spiritual

life.

Which is

detrimental to

your physical

life.

And it's

detrimental to

your activities

as a

spiritual

warrior.

And again

it's real

important that

when we are

professing our

faith, when we

are evangelizing,

that we're doing

it the right

way.

That we're not

doing it like

everybody else is

doing it.

That we're not

doing it like

the mainstream

churches are

doing it.

Because they're

doing it wrong

on purpose

to disarm you,

to contaminate

you, to

poison the

well.

It's like

fluoride in

the water.

That's what

they're trying

to do.

They're trying
to add the
fluoride.

Because the
Romans knew
back then that
they don't
want people
walking in
the way of
Jesus.

They want
to make it
watered down.

They want to
make it so
that it's
impossible for
people to be
effective in
this spiritual
war.

Because the
people that we
see on
television,
just like the
people during
the Roman
times, were
proxies of the
dark side.

like avatars,

like drones.

And the

people back

then knew,

just like the

people today,

that their

biggest weakness

is proper

faith.

life.

Some of you

might be

skeptics out

there.

Some of you

might not be

believers.

Some of you

might buy into

the indoctrination

that we

devolved from

monkeys.

Where are all

the species

between us and

the monkeys?

What happened

to them?

And if a

monkey were to

evolve into

something else,

who would it

marry?

You've heard of

natural selection.

Nature selects

against mutations

for the most

part.

If a monkey

were to get

three arms,

nobody's going

to marry it.

It's not going

to evolve.

We've never seen

something evolve

into something

else.

We don't see

a new species

evolve.

Instead, we see

species getting

wiped out.

People think

that we just

landed on this

Goldilocks planet

by chance.

But nothing

here is by

chance.

It's all been

designed.

And the proof

is right there

in the DNA.

Even the

simplest form

of life

requires

megabytes

of information

to function,

to survive,

and to

reproduce.

Today,

essentially,

we can boot

up DNA

in a lab

in some

kind of

synthetic

cell.

Because it's

a programming

language,

you can just

basically punch

the code that

you want

on a computer.

a machine

will inject

it into a

cell.

That cell

will be

booted up

in a lab,

and essentially,

they can

reproduce

simple forms

of synthetic

life.

life.

But the

reason that

they can

do it is

because life

is governed

by a

programming

language,

and every

program requires

information.

And when we

talk about

megabytes of

information,

for the

simplest form
of life,
that's
essentially
the equivalent
of an
encyclopedia,
at the
very least.
you can't
get an
encyclopedia
of information
through a
random sequence
of events,
and that's
what the
law of
information
is all
about.
Information
requires
an author.
Whether it
be a book
or a
program,
you can't
just throw
Scrabble
letters onto

the table
and get
an
encyclopedia.

There is
no pathway
of chemical
evolution
from
chemical
compounds
to the
simplest
form of
life.

Some
people are
science-phobes
out there,
but essentially
science proves
that you
can't get
something from
nothing.

The law
of biogenesis,
write this one
down,
biogenesis
states that
you can't
get something

living from
something that's
not living.

Period.

End of
story.

What came
first, the
chicken or
the egg?

End of
story.

So if you're
buying into
the story
that we
just landed
here and
we just
devolved from
monkeys out
of stardust,
you're far
from the
reality of
the situation.

And the
implications are
huge.

And you
don't have to
be a rocket
scientist to

figure out
that it's
the pages of
the Bible
playing out
before our
very eyes
around us.
And that's
why it's
important that
you pay
attention to
the Bible
because these
stories are
repeating.
People are
coming back.
Enemies are
coming back.
And the
story continues
to repeat
over and
over again.
That's why
you should pay
attention to
every book in
the Bible.
Know it by
heart.

Have it be
your owner's
manual,
your guide
to life
in this
matrix,
in this
constructed
reality.

And truly
that is
the definition
of a
matrix,
a
constructed
reality.

Everything
around us
is based
on
building blocks
similar to
ones and
zeros.

But instead
of ones and
zeros,
it's protons
and electrons.
electrons.

A hydrogen

atom,
the simplest
element,
if you will,
is basically
a proton
and an
electron.

You put
two hydrogens
together,
essentially you
get helium
when you
fuse them
together.

We're not
talking about
the covalent
bond of
 H_2 that
we find
in nature.

Hydrogen is
usually found
as H_2
as a
molecule.

But if you
fuse two
hydrogen atoms
together,
you look on the

periodic table,
now all of a
sudden you've
got helium.
You've got
two protons
and two
electrons.
electrons.
And it just
goes from
there.
Instead of
ones and
zeros,
it's
positive and
negative.
It's
protons
and electrons.
And that's
how this
reality is
constructed in
a very simple
form,
in a very
simple way.
But it all
comes together
to form
complex

three-dimensional
structures
that perform
functions that
allow things
like life
to happen.

We could
spend a lot
of time on
biology and
biochemistry.

People have
heard of things
like proteins
and enzymes,
and essentially
these things
do what they
do based on
their shape,
like a
bottle opener.

form follows
function.

And
these proteins,
these enzymes,
these micromachines
are all
programmed by
DNA.

And

they're all
put together
with
molecules and
elements that
are in the
environment.

physical
component.

It's pretty
wild.

But that's
the physical
component.

We've been
talking about
the spiritual
component of
what's out
there,

and in
our series
from the
main show,
where we
talk about
faces from
another
dimension,
you can
basically see
the spiritual
component

embedded into
the physical
like a
watermark.

It's pretty
much part
of the
fabric of
time and
space.

You can't
really separate
the physical
from the
spiritual,
because the
physical tends
to be like a
vessel for
the spiritual.

Your body
is like a
life support
system for
your soul.

And you're
like an
astronaut in
this physical
world.

But
essentially,
you're like a

spirit walking
around in the
flesh.

you're living
in a
metaphysical
world,
a world
that's
physical,
but is
essentially
vessels for
spiritual
entities.

And these
spiritual entities
are coming
from another
world.

It's the
spiritual world
that made
the physical
world.

world.

It serves a
purpose.

And
when things
happen in the
spiritual world,
and this is

like a
parallel universe,
if you will,
when things
happen in the
spiritual world,
they spill
over,
they ripple
into the
physical world.

And this is
why,
basically,
world events
happen.

This is
why human
history is
the way it
is.

Because
essentially,
it's like a
reflection,
it's like a
ripple effect
of what's
happened in
the spiritual
world.

In a sense,
we're like an

echo.

But in another

sense,

we're like

operators in

the matrix.

We're like

astronauts here

in this

metaphysical

world,

and we have

this spiritual

component that

we're not

using,

because we're

just basically

disarmed and

dumbed down,

and we're

deceived by

the veil of

the physical

world.

The physical

world is like

a skin.

When you look

at people,

when you look

at cute little

animals,

you're just
looking at the
outward appearance,
you're looking
at the skin,
you're not
looking at
what's behind
the skin.

If you
could see
underneath the
skin with
some kind
of x-ray
vision,
you would
probably flip
out.

You couldn't
handle it.
It's too
intense.

All the
veins and
the arteries
and the
muscles and
the nerves,
you just
couldn't take
it.

The reality

of it would
just kind
of like,
you know,
make you
pass out.
And so
we just
kind of
like,
try to
simplify
our
understanding
of the
world by
looking at
things skin
deep,
from a
purely
physical
perspective.
And that
essentially is
the illusion
of the
matrix.
That's what
holds us
back from
our full
potential as

spiritual

warriors.

Because we

can have a

huge impact

on this

world and

on the

other

world,

because we're

spiritual

creatures.

And being

able to

apply that

knowledge,

spiritually,

takes

practice.

Many of

you are

on the

way to

being

trained

as a

Jedi.

You're

learning a

little bit

about the

spiritual

world by
saying your
prayers.
You're
trying to
do something
there that
isn't
physical in
nature.
You're
trying to
communicate
with the
spiritual
world.
And so
many of
you are
taking
baby steps
to where
you need
to be.
But we
want to
get you
there at
warp speed.
Because this
is a war.
It's a
total war.

It's not a
debate.

It's not a
maybe.

We didn't
ask for this
war.

But as
citizens of
the kingdom
of heaven,
we are at
war with
the kingdom
of darkness.

It's just
the way it
is.

And so
we have to
act accordingly.

But there's
no winning
a spiritual
war with
guns or
knives or
baseball
bats.

You have
to be able
to hit the
targets that

are spiritual

in nature.

Otherwise

you're just

hitting the

drones.

You're not

hitting the

HQ.

You're not

hitting their

home base.

You're not

hitting the

operators that

are really

to blame or

that are really

responsible for

what's going

on.

And so

the more you

know, the

more damage

you can do.

And again,

this is why

we're doing

this podcast

series.

And we're

doing it in

audio format

because otherwise

you're not

really going to

be paying

attention.

And maybe

you're not

paying attention.

Maybe you

need to

listen to

this again.

Sometimes

it takes

two or

three times

for information

to soak

in.

But for it

to soak

in, for you

to absorb

this information,

you really

need to pay

attention to

the ideas

that we're

trying to

communicate.

We're not

trying to
entertain you
with shocking
video or
something like
that here.

Because it's
going to be
a distraction.
You have to
understand the
ideas.

And again,
there's no
replacing your
knowledge of
the Bible.

But reading
through it,
of course,
is just part
of the
adventure.

Deciphering,
understanding,
unpacking what's
there is the
difference between
let's just say
the average
churchgoer and
the more
advanced

practitioner.

There's a
difference between
understanding
your faith and
practicing your
faith.

belief.

There's a
difference between
believing and
doing.

Some people
talk the talk,
others walk
the walk.

And so you
really have to
spend time
thinking about
what's in the
Bible.

Instead of
thinking about
what's on
television.

Instead of
thinking about
what's on the
internet.

Instead of
thinking about
what the

neighbors are
doing.

Instead of
thinking about
secular things.

Now of
course you
have to
think about
physical
things.

Because we're
like astronauts
in this
physical world.

There's things
that you just
have to do.

And so some
of your time
is going to
be spent
doing that.

But you
need to go
on some
nature walks.

You need to
spend an
hour a day
on the
Bible.

Then go

walk around
for an
hour thinking
about what
you just
read or
listen to.

And that's
the road to
revelation.

That's the
road to
understanding
what's really
out there.

And that's
the road to
seeing beyond
the veil and
being an
operator beyond
the veil.

Human ideas
can have a
huge impact
on the
spiritual world
and in fact
can manifest
things in
the spiritual
world.

In fact

humanity in
itself is
quite the
achievement.

We are
created in
the image
of our
creator which
has huge
implications.

actions.

We can do
things that
are way
beyond
what
normal people
are doing.

And just
about everything
that we do
has a side
effect and a
ripple effect
in the
spiritual world.

What we
bind on
earth is
bound in
heaven.

What we

unleash on
earth is
unleashed in
heaven.
When we
commit sin
on earth
it unleashes
spiritual
wickedness
in the
heavens above.

And so
people don't
even know
essentially
they're like
passing gas
wherever they
go.

Pardon that
expression but
they don't
even know
how bad
they stink.

And what
kind of
impact
they're
having
on this
spiritual

war.

That's

why you

really

have to

limit

the damage

that you're

doing out

there.

Because all

of your

actions have

a side

effect.

we haven't

totally been

able to

prove this

but we

highly

suspect that

human

activity can

create

something that

is demon

like.

Because we

are created

in the

image of

our creator.

We can't
do everything
obviously that
the almighty
can do but
we can do
things that
we're just
not even
aware of.

And a lot
of the things
that we do
have side
effects.

And that's
why you
should really
stop doing
what everybody
else is doing.

And it's
why you should
be doing it
the right way.

Because what
they're trying
to tell you
in the
Bible,
what's there
in the
Bible is

there for
many different
reasons.
it's not
just don't
steal because
it's a bad
thing,
because it
causes other
people to get
angry and it
causes other
problems down
the road like
a domino
effect.

Essentially the
act of
dishonesty can
spawn things
that we're not
even aware
of.

And so
try not to
lie,
try not to
steal,
try not to
be envious,
try not to
be boastful,

try not to
take selfies,
try not to
be selfish,
try not to
be all of
these things
that are
abhorrent
to our
Creator.

We're called
to be holy,
we're called
to be
outstanding
people,
so that
we can be
acceptable
to our
Creator.

And this,
of course,
has a lot
of implications.

In closing,
you don't have
to chase
after the
blessings,
the blessings
will chase

after you
if you're
doing the
right thing.
it's kind
of like,
you know,
you see
some trash
on the
floor,
and you
decide to
be a good
citizen,
and you
bend over,
and you
pick up
the trash,
and as
you're
bending
over,
a bullet
flies
overhead.
Had you
not done
the right
thing,
you would
have been

hit by

that

bullet.

That's

just one

of many

examples

things

that we

could

formulate

for doing

the right

thing.

Doing the

right thing

is its

own

reward,

and a

lot of

good will

come out

of it,

not only

in your

life,

but in

your

environment

around you.

It's not

always easy.

But sometimes

just doing

the right

thing isn't

enough.

Sometimes

you need

to be

a little

more

proactive

and intervene

because it

is a war.

When you're

on the

battlefield

facing the

enemy,

you don't

always have

time to

just be

picking up

trash and

being nice

to people.

Moses and

Joshua weren't

saying prayers

for the

Philistines

or the

Chaldeans

as they

were wiping

them out

on the

battlefield

or the

Canaanites

or the

parasites.

And so

there's a

peacetime

footing and

there's a

wartime

footing.

Right now

we're in a

war.

And you're

trying to do

all the good

that you can

do, but

you have to

remember that

right now

our main

goal is to

wipe out the

enemy.

And it's

not just

physical in

nature.

Again, the

physical

NPCs or

people that

you see out

there for the

most part that

are working

against you,

that are laughing

at you or

whatever,

giving you a

hard time,

they're just

drones for

the dark

side.

They're drones

that are being

controlled by

operators that

are sitting in a

different world,

that are spiritual

in nature, a

consciousness that

is essentially

dreamlike, but

more like

nightmare-like.

And so the

enemy is like

a nightmare, a

consciousness of

nightmares, a

dark cloud of

evil.

And for the

time being,

most people

can't really

comprehend what's

out there, but

this evil does

have a face, and

it does look at

you, and it

does think about

you, and it

does work

against you.

And most

people don't

even know it's

there, and they

can't even address

the real issue.

But you can reach

out and hit these

things if you

put your mind to

it.

We're going to
be getting into
that in future
broadcasts, how
to do the real
damage in the
spiritual war,
but there's
no replacing
faith, there's
no replacing
knowing the
Bible, and so
we can't spend
enough time
there trying to
bridge the gaps,
trying to get
people where
they need to
be.

But help
yourselves out,
help us out in
this process by
listening to the
Bible every day,
and if you
haven't ever
listened to all
of it, then you
better do so.

And again, you

can just search
for the King
James dramatized
version of
every book in
the Bible, and
you're going to
be able to
listen to it, and
you can get
through the whole
Bible in a
week or so if
you're really
motivated.

play it while you're
trying to go to
sleep, play it
while you have
breakfast in the
morning, play it
as you go to
work, get
through it as
quickly as
possible.

Have that be
your entertainment,
have that be your
hobby, have that be
your occupation,
have that be at the
center of your

life,
instead of
wasting it on
physical, secular
things that don't
even matter.

Now we're not
talking about putting
bread on the
table, we're
talking about, you
know, just spending
your time watching a
movie, watching
Hollywood, watching
you know, the
pedotainment that's
out there.

don't waste your
time being
influenced by that
garbage, by the
dark side.

Instead, fill your
mind, fill your
soul with the
words of the
Almighty.

You basically have
two choices out
there.

You can subscribe
to Jesus or you

can subscribe to
the devil.

But everything you
do is one or the
other.

If you're not
listening to the
Bible, if you're
not contemplating
what's in the
Bible, if you're
not living that
life, then
essentially you're
subscribing to the
devil.

You're following
the dark side.

You're marching to
the music of the
dark side.

When you're
listening to music,
when you're
listening to
entertainment, you're
listening to the
dark side.

It's all there to
waste your time, to
corrupt you, to
deceive you, and to
keep you in the

matrix.

It is the blue
pill, if you will.

So if you take
anything away from
this podcast
series, then
take that with
you.

You're either
subscribing to
Jesus or you're
subscribing to
the devil.

But remember,
Jesus didn't
teach you how to
pray our Jesus.

That is not the
prayer that Jesus
taught you.

And Jesus
didn't say,
you.

He said,
our.

It's
inclusive.

Read it again.

Forget what the
churches are trying
to do out there
because they're

trying to corrupt
you and deceive
you.

As, you know,
many of these
people in the
churches are
sodomizing each
other and molesting
little children.

There's a reason
why they're
doing that.

And it's not
like some
kind of
aberration.

What's going
on in these
churches is an
abomination.

So, we're
here to set the
record straight.

And if you
want to know
more, then
continue by
subscribing to
this podcast
and letting
other people
know to

subscribe to
this podcast.
podcast.

It is
definitely going
to be the
most powerful
series on the
subject that's
out there.

Until the next
time, if you're
listening to this,
you are the
resistance.
resistance.
