

THE JEDI HOTLINE - EPISODE 51

Welcome back to Jedi Training. The title of this podcast is the hotline. We're going to be setting up a hotline for your questions and concerns, for your support.

You're going to encounter a lot of phenomenon on the battlefield, and we want to be able to harmonize projects, endeavors, and campaigns in the future.

And so, let's see if we can get together on the hotline. It'll be in Telegram, and we'll try and take calls as well.

We'll probably do that once a week, and answer your questions live on air.

I hope that some of you have made it through all of the podcasts and have accomplished the objective in those podcasts and are ready for battle.

I'm not sure how many of you are ready for battle. You're never going to be ready for battle.

But, once you get on the battlefield, you're going to want some support, and we're going to try and do the best we can to support you in spiritual warfare.

So, let us know if you need support, where, when, and we'll do our best.

We'll also think about future campaigns together.

We're going to be talking about harmonizing, but first I want to see how many people are available.

For action.

And we'll try and coach you through some more interesting ideas.

But, we're going to set up the hotline in case you run into an emergency.

Because freaky things will happen.

Up to and including alien aircraft.

Tractor beams.

Never try to escape into the country at night.

You may disappear.

So, you've got to stand your ground.

You've got to be able to shield.

And standard shielding doesn't really work.

So, you really have to be MacGyver.

And throw everything at it, including the kitchen sink, to survive.

But, if you can successfully set up a bunker, then you've got yourself a telekinetic battle station.

And we should coordinate our activities.

But, like I said, we're going to set up the hotline for emergencies, for questions, for emotional and spiritual support.

If your area seems like it's too hot to handle, we'll try our best to look at that situation.

But, right now, we're surrounded with siege weapons.

Time is precious.

And, there's incoming fire all the time.

And, so, we've been spending a lot of time upgrading the shielding.

It's just never enough.

Exploring new concepts, new ideas, and testing out what works and what doesn't work.

And, well, some of the stuff works some of the time.

You notice the improvement, but you also notice the gaps.

And, so, our objective right now is to find a solution, a shielding strategy that works.

And, you're basically looking at different scenarios.

Like, going out into the world for supplies and the like.

For being at home and for trying to sleep.

So, you basically need different shielding strategies for all of those things.

Things, because it's always worse at home.

And, it's even worse when you're laying in bed.

That's when they really get you.

And, the underground weapons are worse.

Much worse.

Than the weapons that you experience throughout the day.

So.

That's basically the current situation over here.

It's, it's, you know, it's pretty bad.

Touch and go.

It's a miracle that I'm still here.

But, this is a holy war.

And, miracles are going to happen.

And, living through it just, you know, reaffirms your faith.

And, keeps you going.

You always have to think about.

When Jesus and the disciples were out on the sea of Galilee.

And, there's a storm.

And, you know, they're freaking out.

And, we're going to perish.

And, Jesus is like, oh ye of little faith.

I mean, imagine being on this little boat or something.

And, it's a mega storm.

And, you know, the thing's going to capsize.

I mean, everybody's freaking out.

It's real bad.

The waves are coming in.

I mean, that's what it's like.

And, when you read that.

You're like, oh, of course I wouldn't freak out.

I know Jesus is going to save us.

But, you're going to freak out.

And, it's normal.

It's totally normal.

It's bad, but good.

At the same time.

And, so.

We'll try and, you know, reassure you the best we can.

But, remember.

You know, what this is all about.

And, who sent you.

So.

We're here to fulfill scripture.

Because, it's the pages of the Bible playing out before our very eyes.

Every day.

Over and over again.

That's what it's all about.

That's the main theme to creation.

So, if you understand that.

You understand.

Just about everything.

But, if you look at the world from like a secular or any other kind of point of view.

Then, you totally miss out.

On what's going on.

But.

There's only one way to do it.

And, it's the right way to do it.

As it's described in scripture.

And, so.

You just got to keep the faith.

And, do the best you can.

But, it's.

It's going to be tough.

And.

And, you know.

I don't want to hide that from you.

That's the promise.

That's how you know it's.

It's real.

When you leave doubt behind.

And, you just.

You know.

You go all in.

You know.

You're going to face tribulation.

That's where the real testing begins.

You know.

Just like.

Leaving doubt behind.

I mean.

That's trivial.

Compared to what's waiting for you.

So.

It's bad.

It's real bad.

But, good.

All at the same time.

I just got to.

Repeat myself.

So.

We'll leave it there.

We'll be back.

We're thinking about.

You know.

What direction.

To take this now.

We've unloaded a lot of.

Information.

And.

You know.

Practice makes perfect.

And a lot of the other things.

Will just kind of come naturally.

But.

Remember.

Hand eye coordination.

And.

You know.

Flex the eye muscles.

And try to.

You know.

Land.

Land.

The hit.

With hand eye coordination.

Thought.

Movement.

And.

You know.

Eventually.

You can have.

Sessions.

Where.

You know.

You hit.

A lot of targets.

Where you basically.

Set.

Time.

Aside.

Just for this.

30 minutes a day.

An hour a day.

And.

You're just going through.

All the targets.

That you can.

And you're going to see action.

But it's basically.

Part.

Windows in time.

And part.

Twilight zone.

While you're standing.

So.

That's where things start to get.

More interesting.

And you're really becoming.

Like a drone operator.

If you will.

So.

That's where the real action is.

But you got to practice.

All of these different.

Skills.

And that takes a lot of time.

What I'm talking to you about.

Is.

You know.

20 years of experimentation.

And.

Of course.

You know.

Opening up the third eye.

Is.

Is key.

As well.

So.

It's a real tough.

Kind of.

Vocation.

I can't tell you.

If.

Those that haven't.

You know.

Experienced.

The third eye.

If you will.

It's hard to say.

If.

If these people.

Can activate.

Their hardware.

I would assume so.

But.

You know.

I can't go back to.

When I was.

15.

And try it out.

Or 18.

Or 21.

So.

You would kind of think that.

Absolutely.

Straight edge.

Pure blood.

Would.

Would be the most effective.

So.

Don't rule anything out.

But.

From my perspective.

Opening the third eye.

Is.

Is helpful.

It doesn't mean that it can't happen.

Early in the morning.

You know.

Drinking coffee.

Because it can.

But.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

I don't.

But.

In my experience.

I try to.

Give myself all of the enhancements possible.

For better or for worse.

It's hard to say.

We'll leave it there.

Until the next time.

If you're listening to this.

You are.

The resistance.

deep-byes.

towards you as.

I don't want center much.

to over you as.

Because of Steve.
